

Construction Update

Pulaski Bridge

Pedestrian and Bicycle Improvements

Brooklyn/Queens	CB-BK1 / CB-Q2	September 2015
-----------------	----------------	----------------

The project to install the new dedicated bicycle lanes on the Pulaski Bridge began in September 2015. The contractor is currently removing concrete from the roadway in sections to install the cast-in-place permanent barriers. This phase of work requires pavement breaking, an operation that generates noise. Efforts are made to mitigate noise during this operation which is expected to be complete by the end of October.

The contractor's permits require most work to be scheduled between 9:00 pm and 5:00am Monday through Thursday and 10:00pm and 6:00am on Fridays.

Questions regarding this project may be directed to Community Liaison Hugh Smith, at 917-434-1385 or via e-mail at pulaskibrIDGEproject@gmail.com. For all NYC non-emergency services, including inquiries regarding NYCDOT construction projects, dial 311. Be prepared to give your name, borough, the project number (HBCR01B), and a return phone number. For more information visit the project Facebook page by clicking [here](#).
