February 26, 2016 to March 3, 2016

Dear Sunnyside Resident:

Every effort is made to schedule work for the East Side Access project (ESA) during daytime hours, however due to track outage limitations, it is sometimes necessary to perform work during weekends and overnights.

**Please be advised of the following East Side Access work:**

**Saturday, February 27th and Sunday, February 28th**

There will be work for the East Side Access project along the right of way between 48th and 52nd Streets beginning each day at 7:00 a.m. and ending at 7:00 p.m. The work will include the removal of vegetation along the track and survey work near the 48th Street Bridge.

**Monday, February 29th to Tuesday, March 1st**

East Side Access contractors will deliver and place equipment along the track between the hours of 11 p.m. and 7 a.m.

These activities are in preparation for additional work that will begin along the tracks within the next few weeks. Advance notification and information about this upcoming work will be shared via email once the schedule and activities have been confirmed.

Residents in proximity to this location may see lights in use and hear some noise from the equipment. The contractor has been directed to aim the lights away from residential areas as long as it does not impact the safe execution of this work or the trains as they travel past.

□

ESA Community Outreach aims to provide the most up to date information on work activities; **however the schedule of work is subject to change.**

We apologize in advance for the potential disruptions you may experience from the ongoing work. For questions or concerns about the work, please contact the East Side Access Community Outreach team:
