YOUR WAY

A MESSAGE FROM PATROL BOROUGH QUEENS NORTH

*** Be aware of the Mail "PHISHING" Scam!

Criminals are using sticky mouse traps, as well as other sticky objects, attached to a long string to gain access into mail boxes to grab your mail!! They are "phishing" to illegally obtain your sensitive personal information and specifically for your personal checks. Using a process known as "check washing", criminals erase the ink on a check using assorted chemicals and then rewrite the checks payable to themselves, increasing the amount payable by hundreds and even thousands of dollars!!

**Use a drop box at the Post Office before last pick-up, when mailing your personal checks.

**Based on recent ink security studies, we highly recommend that you use a gel pen like the UniBall 207 that contains tiny particles of color that are trapped into the paper, making check washing difficult.

Beware of Deception Burglaries

Deception Burglary- a burglary committed by a person(s) gaining entry into a home by falsely presenting him/herself as an employee of a particular company. These impersonators use false covers such as; utility companies, delivery companies, and companies such as plumbing or electrical contractors. A common ploy being used is; "A pipe broke down the block and we have to check the water." Once inside, the perpetrator(s) manipulate and distract a victim while pocketing their valuables.

- Do not become a victim, do not allow strangers into your home
- Verify alleged water company conditions by calling 311 for connection to the Department of Environmental Protection
- To verify gas and electric issues, call Con Edison at 1-800-752-6633
- Do not hesitate to call 911

These criminals often target elderly victims, and operate during normal business hours (9am-5pm), making them less likely to question the situation.

The Crime Prevention Section would like to share the following information to help you avoid becoming a victim of a deception burglary:

- If an unsolicited person(s) comes to your door offering work inside your home:
 - Do not open the door
 - Stay inside your home
 - Verify his/her I.D. through the view finder (peephole)
 - Contact the company to verify employee's legitimacy (company numbers may be looked up via internet or on your bill)
 - Keep a list of utility companies phone numbers in a convenient location
 - Do not invite anyone into your home while you verify a "work order."
 - If you can not verify the I.D., feel unsafe, or suspect criminal activity, call 911 immediately
