End the Summer Safe and Sound
A few quick safety tips from the American Red Cross

Across the city, many people are already planning to end their summers on a good note; specifically on Labor Day weekend. Whether it be sticking close to home or going off on an excursion, remember, accidents can often be avoided through careful preparation.

Here are a few precautions to keep in mind:

- Keep a kit within reach. You should always have a first aid kit in your home, by the pool, packed with your beach gear and in your car.
- You're ready - but is your car? Don't wait for a rattle or a warning light to find out your car isn't up for the trip. Be sure to have brakes, tires, oil and fluids checked before taking to the roadways.
- Don't keep your plans to yourself. It's important to share your travel plans with family and friends. Let them know the dates you plan to travel and the location of where you're staying. Always share contact numbers in case of an emergency.
- Play it safe under the sun. The sun is just as hot on Labor Day as it was 4th of July, so you'll need to take the same precautions. Always wear sunscreen when outdoors. Make sure everyone wears a hat to shield direct sunlight. Keep enough water or juice for everyone to drink continuously throughout the day and be sure to drink fluids even when you're not thirsty.
- Enjoy water the safe way. Now is not the time to forget about the rules of water safety. Remember: never swim alone, only swim in supervised areas, enter water feet first, and don't mix alcohol with swimming or boating.

BOOTING—WHAT YOU SHOULD KNOW

What is Booting?

“Booting” is an enforcement tool used instead of towing. With booting, a device is attached to a wheel of your vehicle to prevent you from moving it. You can be booted for owing the city more than \$350 in parking, red light camera, or bus lane violation tickets that are in judgment. If you do not pay the parking, red light violation and bus lane related fees within two days of being booted, then your vehicle may be towed. A pilot program began in Brooklyn on June 25th, 2012, and has started in Queens on July 30.

More information regarding booting, and what to do if your vehicle is affected can be obtained on the web at: nyc.gov/finance.
