FY 2005 Executive Budget Register of Community Board Budget Priorities

The Register of Community Board Budget Requests for the Executive Budget reports the FY 2005 executive budget status of each of the projects and programs requested by the City's 59 community boards.

The FY 2005 Register is the charter mandated product of a dynamic and cyclical budget process for the 59 community boards. The community boards consult with agencies on the capital and expense needs of the district. After consulting, each community board develops and votes separate priorities for up to 40 capital and 25 expense budget requests which the agencies review and respond to in the **Register of Community Board Requests for the Preliminary Budget** in January**.**

The Mayor's Office of Management and Budget (OMB) reviews these same budget requests and updates the responses for the Executive Budget.

In May, the City Council holds public hearings on the Executive Budget. At these hearings, community boards, community groups and interested citizens may comment on the budget decisions contained in the Register.

In July, OMB publishes **the Register of Community Board Budget Requests for the Adopted Budget** which will inform the boards of the final disposition of their original budget priorities. The Adopted Register will contain responses that reflect the changes made to the Executive Budget by the City Council.

Capital project requests from community boards are site specific, and primarily for infrastructure or public facility improvements. For FY 2005 the boards sought new or continued funding for 1,648 capital projects.

The 59 community boards participate in New York City's expense budget process in two ways. They indicate immediate service needs by submitting expense budget requests with voted priorities. Community boards submitted 1,301 expense requests.

Boards also indicate the general importance of current services by ranking service programs which provide direct local level services. This ranking system informs elected officials and budget decision makers which programs the communities deem most important. For FY 2005 the community boards ranked 85 program activities provided by 24 selected agencies.

For more specific information about programs important to the community boards, refer to each agency's section in the Message of the Mayor for the Executive Capital and Expense Budgets.

Call 212-788-5930 for more information about the community board process including consultations, the service program rankings and the geographic versions of budget documents.

FORMAT OF THE REGISTER

The Register of Community Board Budget Requests is sorted into four versions: Community Board, Borough, Council and Agency. In all versions of the Register, each board's expense requests directly follow their capital requests. The requests are in board order.

At present the only way to access the northern portions of the borough is by crossing the Eastern Blvd. Bridge on Bruckner Blvd. Which is a chronic bottle-neck location. FY 2005 Executive Budget Register of Community Board Budget Priorities

The Register of Community Board Budget Requests for the Executive Budget reports the FY 2005 executive budget status of each of the projects and programs requested by the City's 59 community boards.

The FY 2005 Register is the charter mandated product of a dynamic and cyclical budget process for the 59 community boards. The community boards consult with agencies on the capital and expense needs of the district. After consulting, each community board develops and votes separate priorities for up to 40 capital and 25 expense budget requests which the agencies review and respond to in the **Register of Community Board Requests for the Preliminary Budget** in January**.**

The Mayor's Office of Management and Budget (OMB) reviews these same budget requests and updates the responses for the Executive Budget.

In May, the City Council holds public hearings on the Executive Budget. At these hearings, community boards, community groups and interested citizens may comment on the budget decisions contained in the Register.

In July, OMB publishes **the Register of Community Board Budget Requests for the Adopted Budget** which will inform the boards of the final disposition of their original budget priorities. The Adopted Register will contain responses that reflect the changes made to the Executive Budget by the City Council.

Capital project requests from community boards are site specific, and primarily for infrastructure or public facility improvements. For FY 2005 the boards sought new or continued funding for 1,648 capital projects.

The 59 community boards participate in New York City's expense budget process in two ways. They indicate immediate service needs by submitting expense budget requests with voted priorities. Community boards submitted 1,301 expense requests.

Boards also indicate the general importance of current services by ranking service programs which provide direct local level services. This ranking system informs elected officials and budget decision makers which programs the communities deem most important. For FY 2005 the community boards ranked 85 program activities provided by 24 selected agencies.

For more specific information about programs important to the community boards, refer to each agency's section in the Message of the Mayor for the Executive Capital and Expense Budgets.

Call 212-788-5930 for more information about the community board process including consultations, the service program rankings and the geographic versions of budget documents.

FORMAT OF THE REGISTER

The Register of Community Board Budget Requests is sorted into four versions: Community Board, Borough, Council and Agency. In all versions of the Register, each board's expense requests directly follow their capital requests. The requests are in board order.

LAYOUT OF CAPITAL BUDGET REQUESTS PAGES

Column 1: Priority Number

The priority assigned by a community board reflects the importance of that request as compared to its other requests. Boards may assign Continued Support (CS) to a project which received funding for construction in any year of the Financial Plan FY 2004 – 2008.

Column 2: Tracking Code

The seven digit identification number assigned to each community board budget request. Tracking codes are unique to each request and identify the borough, community district, year submitted, and request. The first digit refers to the borough, 1 = the Bronx, 2 = Brooklyn, 3 = Manhattan, 4 = Queens, and 5 = Staten Island; the second and third digits indicate the district number. The fourth and fifth digits represent the fiscal year in which the project was first submitted and the last two digits are the request number. The letter A in the eighth space indicates a capital budget request.

The Executive Budget recommendation for each budget request.

LAYOUT OF EXPENSE REQUEST PAGES

Column 1: Priority Number

In the aftermath of 9/11, it is apparent that threats can come from land, air and sea. Currently the department has three front line boats. A new, larger vessel in the 135-140' range capable of high speeds and high pumping capacity with a large deck area for rescue operations is imperative given the dangers form a harbor accident or fire involving for example the many cruise ships entering and exiting the harbor, cargo vessels an the many ferries. Waterfront communities such as ours are particularly vulnerable to such incidents. **Responsible Agency**: Fire Department	Approval of this request depends on sufficient Federal/State funds.
11	2060509E	**Request:** Restoration of Composting and Fall Leaf and Yard Waste programs **Explanation:** Sufficient funds are requested for the restoration of Composting and Fa and Yard Waste programs to segregate out and divert these materials from the municipal solid waste stream. Diverting these materials from the waste stream saves the City money by reducing the amount of municipal solid waste that is collected, processed and exported. They are easy to segregate from the waste stream and have natural local destinations for use as mulch and compost in parks and community gardens throughout the City. Even voluntary programs have proven to be effective and easy-to-run, with modest support from the City for promotional and outreach expenses. This would also help the City realize its goals articulated in their Comprehensive Solid Waste Management Plan. **Responsible Agency**: Department of Sanitation	The agency will try to accommodate this issue within existing resources. OMB supports the agency's position.

12	2069501E	**Request:** Expansion of Jobs Creation/Readiness/Training Programs **Explanation:** To combat high levels of unemployment, particularly in our Gowanus and Red Hook neighborhoods, coupled with significant Federal changes in the existing public assistance programs, additional focus must be placed on preparing persons for work and expanding work opportunities. Given the far- reaching impact of unemployment and its undesirable affects on health, education and social welfare, it is imperative that front-end investment in human capital occur to ensure local economic utility. **Responsible Agency**: Dept of Small Business Services	This project is currently under review. Funding is not provided in the Executive Budget.
13	2069703E	**Request:** Expansion of Waterfront Enforcement Division **Explanation:** Sufficient funds are requested to hire additional Waterfront Enforcement Division personnel, currently 4 persons citywide, to ensure that adequate coverage of the City's 578 miles of waterfront will be preserved and protected. Waterfront Enforcement Division personnel are responsible for enforcing the City's building code for waterfront properties, some of the most valuable and sensitive properties in the City. This would be a good way to reverse the trend of neglect suffered by the City's lack of waterfront develop- ment policies over the past few decades, and signify a commitment to the renewe importance of the City's waterfront as an asset and resource to draw from. **Responsible Agency**: Dept of Small Business Services **Supported by:** Metropolitan Waterfront Alliance	This project is currently under review. Funding would be use to pay for additional equipment, supplies and professional resources to allow the Community Board to lead an open, public and transparent process that would produce a comprehensive plan. The Gowanus Canal corridor has been the subject of many recent proposals to convert existing zoning and land uses, and has been affected by changes in the local economy that warrant a fresh look at how exist ing zoning can be changed to provide opportunities for appropriate growth in th future. **Responsible Agency**: Economic Development Corporation	More information is needed from the community board before making a funding decision. The agency will contact the board.
15	2069803E	**Request:** Additional Buildings Inspectors **Explanation:** Sufficient funds are requested for the hire of additional Buildings Inspectors for site safety, complaint investigation and C of O inspections. 17	2060403E	**Request:** Expansion of Parks Forestry Division **Explanation:** Sufficient funds are requested to hire additional Parks Forestry personnel to regularly address pruning and stump removal to maintain the health and safety of our communities. While the city allocates sufficient money for the continuous planting of new trees, increasing the City's inventory of street trees, corresponding increases in the Parks Forestry Division are a necessary accompaniment to ensure that sufficient resources are available for ongoing maintenance needs. **Responsible Agency**: Department of Parks and Recreation **Supported by:** The Lorax	This request cannot be funded in FY 2005. Resubmit for future consideration.
18	2060404E	**Request:** Restoration of Police Patrol Strength Personnel. **Explanation:** Sufficient funds are requested to recruit and retain police partol strength to safeguard the impressive strides in public safety over the past decade. Historically, as crime decreases and budget pressures increase, police staff suffers which begins the downward spiral of public safety and increasing crime. Maintaining a strong police force is even more necessary in the aftermath of 9/11 to ensure public safety and restore a high degree of confidence in keeping and attracting residents, businesses and tourists to the City - all essential to the City's economy. **Responsible Agency**: Police Department	In the Executive Budget Citywide personnel/program /equipment funds are maintained in FY 2005. Resubmit for future consideration.
21	2060511E	**Request:** Expanded Funding for Senior Centers **Explanation:** Sufficient funding is requested to increase operating budget allocations in exisiting senior centers. At a minimum, additonal funding is aought to help keep pace with cost of living increases which over time take more and more re- sources away from the base operating budgets from programming and salary monies Effectively, by not providing for regular, modest increases the senior centers' budgets are being decreased over time as basic costs only go up. This need is especially pressing with an aging population, as more and more "baby boomers" will be placing increasing demands on these facilities, which is anticipated to increase in the near future. **Responsible Agency**: Department for the Aging	Approval of this request depends on sufficient Federal/State funds.
22	2060512E	**Request:** Expansion of Services to Victims of Domestic Violence **Explanation:** Additional funding is requested to expand the spectrum of services that provide assistance to vicitims of domestic violence - from counseling to protection to shelter - in order to ensure that adequate resources exist to help this vulner-able population in need. Increasing the frequency of replacing fleet vehicles should ultimately lead to a more efficient use of vehicles that would be in service a greater portion of the time and require less maintenance over the life of the vehicle. Also, resale value of used ve- hicles would be higher, resulting in enhanced revenue for the City. **Responsible Agency**: Police Department	In the Executive Budget Citywide personnel/program /equipment funds are maintained in FY 2005. CS	2060401E	**Request:** Relocation Assistance to Poultry Markets in Columbia Street District **Explanation:** Sufficient funds are requested to assist Cloumbia Street District area's poultry markets (105 Union Street, 114 Sackett Street, and 183 Columbia Street) to relocate to appropriate manufacturing zones, away from any residential uses, preferabley within the South Brooklyn Enterprise Zone. Over the past decade the population of this neighborhood has skyrocketed, largely due to the construction of housing under the area's Columbia Street Urban Renewal Plan, which has increased the pressure between these live slaughter- houses and nearby residents. Conflicts will only grow worse as population cont inues to rise. The food products and jobs are necessary for the region, since these establishments support Manhattan's Chinatown and have suffered since 9/11 **Responsible Agency**: Economic Development Corporation	This request is not recommended for funding.
CS	2060513E	**Request:** Expansion of NYPD Transit Division to compensate for Token Booth Closures **Explanation:** Sufficient funds are requested to provide resources to hire additional N Transit Police in order to help offset the loss of presense from the transit system brought about from the closure of token booths as a budget savings. The Transit Authority has yet to fulfill a prior commitment to provide enhanced security, through the installation of CCTV and remote surveillance equipment, that was promised as part of the installation of MetroCard Vending Machines throughout the system. Adding insult to injury, after not living up to prior commitments, the agency has reduced its presense in the system further by elimi nating token booths. We're asking for a REDUCTION in levels from the district's current patchwork of once and twice weekly street sweeping services to a uniform once weekly sweeping standard throughout the district. The City can ill afford to squander its sanitation resouces as they had to reduce and eliminate recycling programs, eliminate composting and leaf/ yard waste programs, lay-off sanitation workers, and now has to pay through the nose to dispose of our municipal solid waste stream. SAVE MONEY NOW by grantin this request. We're not kidding. This is a budget request to save the City money. **Responsible Agency**: Department of Sanitation **Supported by:** Park Slope Civic Council	This is not a budget request. The matter in question is an issue of service delivery and/or agency policy. Contact the Department of Sanitation to determine how best to resolve this issue.
CS	2060515E	**Request:** Expansion of Rental Assistance Program **Explanation:** Sufficient funds are requested to expand the Rental Assistance Program i to help people graduate from the City's shelter system into independent and permanent housing. The Rental Assistance Program was designed to allow people to overcome the economic barrier to housing, as the subsidy provided can mean the difference between housing that's affordable and continued reliance on the shelter system. Phased out subsidies, in the end, are less expensive to the City than continued reliance on shelter and can enable more clients to reclaim their self-esteem as productive citizens who are independent of the need for housing. Permanent housing options should be available for high functioning clients, especially when affordability is the only barrier. **Responsible Agency**: Department of Homeless Services	The agency will try to accommodate this issue within existing resources. FY 2005 Executive Budget Register of Community Board Budget Priorities

The Register of Community Board Budget Requests for the Executive Budget reports the FY 2005 executive budget status of each of the projects and programs requested by the City's 59 community boards.

The FY 2005 Register is the charter mandated product of a dynamic and cyclical budget process for the 59 community boards. The community boards consult with agencies on the capital and expense needs of the district. After consulting, each community board develops and votes separate priorities for up to 40 capital and 25 expense budget requests which the agencies review and respond to in the **Register of Community Board Requests for the Preliminary Budget** in January**.**

The Mayor's Office of Management and Budget (OMB) reviews these same budget requests and updates the responses for the Executive Budget.

In May, the City Council holds public hearings on the Executive Budget. At these hearings, community boards, community groups and interested citizens may comment on the budget decisions contained in the Register.

In July, OMB publishes **the Register of Community Board Budget Requests for the Adopted Budget** which will inform the boards of the final disposition of their original budget priorities. The Adopted Register will contain responses that reflect the changes made to the Executive Budget by the City Council.

Capital project requests from community boards are site specific, and primarily for infrastructure or public facility improvements. For FY 2005 the boards sought new or continued funding for 1,648 capital projects.

The 59 community boards participate in New York City's expense budget process in two ways. They indicate immediate service needs by submitting expense budget requests with voted priorities. Community boards submitted 1,301 expense requests.

Boards also indicate the general importance of current services by ranking service programs which provide direct local level services. This ranking system informs elected officials and budget decision makers which programs the communities deem most important. For FY 2005 the community boards ranked 85 program activities provided by 24 selected agencies.

For more specific information about programs important to the community boards, refer to each agency's section in the Message of the Mayor for the Executive Capital and Expense Budgets.

Call 212-788-5930 for more information about the community board process including consultations, the service program rankings and the geographic versions of budget documents.

FORMAT OF THE REGISTER

The Register of Community Board Budget Requests is sorted into four versions: Community Board, Borough, Council and Agency. In all versions of the Register, each board's expense requests directly follow their capital requests. The requests are in board order.

LAYOUT OF CAPITAL BUDGET REQUESTS PAGES

Column 1: Priority Number

The priority assigned by a community board reflects the importance of that request as compared to its other requests. Boards may assign Continued Support (CS) to a project which received funding for construction in any year of the Financial Plan FY 2004 – 2008.

Column 2: Tracking Code

The seven digit identification number assigned to each community board budget request. Tracking codes are unique to each request and identify the borough, community district, year submitted, and request. The first digit refers to the borough, 1 = the Bronx, 2 = Brooklyn, 3 = Manhattan, 4 = Queens, and 5 = Staten Island; the second and third digits indicate the district number. The fourth and fifth digits represent the fiscal year in which the project was first submitted and the last two digits are the request number. The letter A in the eighth space indicates a capital budget request.

Column 3: Project Information

Request: A brief description of the project.

Explanation: Supporting information detailing the project, and its potential benefits.

Responsible Agency: The City agency which would implement the project.

Council District(s): The City Council district(s) where the capital project is located.

Budget Line Number: The number assigned to a capital project that was previously funded or is included in any year of the Financial Plan FY 2004 – 2008.

PROJECT ID: The Capital Project Information System identification number which allows projects to be entered into the City's computer tracking system. The number of the managing agency and the project identification number make up the PROJECT ID of the project.

Source of Request: Any group(s) which support the request.

Column 4: Response

The Executive Budget recommendation for each budget request.

LAYOUT OF EXPENSE REQUEST PAGES

Column 1: Priority Number

Column 2: Tracking Code

The previously described seven digit identification number followed by the letter E in the eighth space indicates an expense budget request.

Expense projects with tracking codes ending with 6, 7, 8, or 9 in the eighth space were originally funded by the Community Development budget and carried in the capital budget data base. These expense requests were transferred to the expense budget data base.

Column 3: Project Information

Request, Explanation, Responsible Agency,

Same as previously described for Capital Requests.

01	3010101A	**Request:** Construct new elementary and intermediate schools in CB #1. **Explanation:** Our local schools are overcrowded & with 13,000 new residential units scheduled for completion between 2000 and 2005 here in Lower Manhattan, this problem will grow far worse. Excellent schools played a prime role in attracting new families to our district. If the City wants to spur additional residential growth, and it does, it must build an additional elementary and middle school immediately. **Responsible Agency**: Department of Education **Council Districts:** 1 **Supported by:** PS 234, PTA Alliance for Downtown New York	This capital project is included within an agency lump sum for FY 2005. Check the Commitment Plan.
02	3019601A	**Request:** Repair/restore East River piers #'s 9, 13, 14, 15 & 16 and implement the CB #1/Alliance for Downtown NY plan for the restoration of the East River Waterfront. **Explanation:** These piers are in a serious state of disrepair. The eastside waterfront in Lower Manhattan can play a vital role in making this area more attractive to new and existing residents, workers and tourists. This important resource must be recaptured and utilized. **Responsible Agency**: Economic Development Corporation **Council Districts:** 1 **Supported by:** Alliance for Downtown NY Seaport Community Coalition	More information is needed from the community board before making a funding decision. 03	3010503A	**Request:** Construct a WTC memorial tour bus facility. **Explanation:** The World Trade Center memorial will attract millions of visitors and up to 160 tour buses per day. An off-street facility to park these buses must be incorporated into the plans for the site or else buses blocking streets and spewing pollution will be the most evident element of the new World Trade Center. We support the construction of such a facility beneath the WTC site. **Responsible Agency**: Department of Transportation **Council Districts:** 1 **Supported by:** WTC Residential Coalition Battery Park City United	The requested project is under consideration by the Lower Manhattan Development Corp., which would fund the proposed investment if approved. DOT supports the development of a project that addresses community concerns about bus parking in a way that is sensitive to its surroundings.
04	3018803A	**Request:** Construct a Lower Manhattan bus parking facility for commuter and tour buses. **Explanation:** According to a May 1988 report by DOT, 725 express buses enter Lower Manhattan daily. The study projected up to 925 buses by 1995 & 1165 by 2005. In addition, hundreds of tour buses enter our district every day. These buses contribute significantly to traffic congestion and pedestrian hazards. Community Board #1 strongly endorses the conclusion of the report which recommends the creation of a passenger terminal with bus storage facilities at the current Battery Parking Garage site. It's time to build a bus storage facility to get the hundreds of non-WTC buses off our narrow, congested streets. **Responsible Agency**: Department of Transportation **Council Districts:** 1 **Supported by:** Alliance for Downtown New York Southbridge Towers	The requested project is under consideration by the Lower Manhattan Development Corp., which would fund the proposed investment if approved. 05	3010504A	**Request:** Construct an indoor recreation facility on Sites 5B & 5C of the Washington Street Urban Renewal Area. **Explanation:** Our primary youth program provider, Manhattan Youth Recreation & Resource is in urgent need of a larger space to operate its many after school and specialty youth programs. Sites 5B and 5C need to allocate considerable space for the indoor recreation center our community has long wanted. **Responsible Agency**: Economic Development Corporation **Council Districts:** 1 **Supported by:** Tribeca Community Association Manhattan Youth Recreation and Resources	The agency will try to accommodate this issue within existing resources. OMB supports the agency's position.
06	3010201A	**Request:** Construct a connection between the East River and Hudson River Park/Battery Park City bikeway/walkway. **Explanation:** There are currently esplanades/bikeways running along both the East River and Hudson River starting at the Battery and running northward. There is, however, no connection between these two which would enable travelers to go around the Battery and proceed onto the other side of Manhattan. It has long been a goal of many organizations to create a continuous waterfront esplanade and bikeway around Manhattan. The small connection between these two esplandes/bikeways at the Battery would be a major step towards realizing this goal. **Responsible Agency**: Economic Development Corporation **Council Districts:** 1 **Supported by:** Alliance for Downtown New York Battery Park City Authority	Approval of this request depends on sufficient Federal/State funds.

07	3010505A	**Request:** Funding for a new Lower Manhattan cultural and recreation center to be op by the 92nd Y. **Explanation:** Bringing a major institution like the 92nd Street Y to Lower Manhattan w give our district a very positive jolt of energy and would serve residents, workers and visitors alike. It would bring lectures, performances, and a wide range of classes to Lower Manhattan. It would be the community gathering space & give people another good reason to want to be downtown. The 92nd St. Y is extremely interested in opening a Lower Manhattan community center and the City needs to support this important endeavor which would be a key cornerstone in the rebuilding of Lower Manhattan. **Responsible Agency**: Economic Development Corporation **Council Districts:** 1 **Supported by:** Alliance for Downtown New York Friends of Community Board No. 1	OMB is exploring this idea. The most recent Financial Plan and Mayor's Message are available in printed form.
08	3010506A	**Request:** Funding to create and/or renovate Peck Slip Park, Barnett Newman Triangle Finn Square, Pearl Street Park and the Greening of Greenwich Street parkland. **Explanation:** The creation of new and attractive parks is essential to the revitalizat Lower Manhattan. With an estimated 25,000 new residents expected to move to ou district between 2000 and 2005, new and improved parks are essential. Each of these spaces should and must be funded and improved. **Responsible Agency**: Department of Parks and Recreation **Council Districts:** 1 **Supported by:** Friends of Greenwich Street Tribeca Community Association	Department of Parks and Recreation funds are insufficient for this project. Areas which contain cobblestone roads are some of the most vibrant parts of NYC. Residents, workers, thousands of visitors, and movie production compaines treasure these streets and want them preserved. CB #1 believes it incredibly shortsighted of the City to recklessly destroy these valuable historic features, particularly in and around historic districts. **Responsible Agency**: Department of Transportation **Council Districts:** 1 **Supported by:** Seaport Community Coalition Tribeca Community Association	More information is needed from the community board before making a funding decision. It is in great need of reconstruction particularly to address pedestrian needs since it is a pedestrian mall between 11 AM-2 PM daily. The City has put forth a plan to make major improvements along Fulton Street. 03	3019306E	**Request:** Increase funding of YDDP, After School and Summer Youth Recreation Programs. **Explanation:** As with our overall population, the CB #1 population of youth ages 19 and under has increased dramatically in recent years. There is heavy demand on our sole, free City-funded program, and it needs be be expanded. The limited DYS funded programs that do exist in CB #1 have not seen an increase in funding in over 10 years. These services are vital to our community and funding must increase to adequately address the growing numbers of youths in the district. **Responsible Agency**: Department of Youth & Community Development **Supported by:** Independence Plaza Tenants Association Southbridge Towers, PS 89, 234 PTA's	Use the agency's application/RFP procedure. Contact the agency.
04	3019902E	**Request:** Increase personnel for night and weekend building inspections (enforcement teams). **Explanation:** CB #1 receives many complaints each week concerning illegal, loud night and weekend construction in our district. These complaints cannot presently be addressed by the tiny number of DOB inspectors assigned during these hours. This is a serious noise/quality of life issue which should be addressed. **Responsible Agency**: Department of Buildings	In the Executive Budget Citywide personnel/program /equipment funds are increased in FY 2005. After the budget is adopted, agencies will schedule specific allocations.
05	3010201E	**Request:** Increase personnel for Parks Department maintenance. **Explanation:** CB #1 has several heavily used parks including Battery Park, City Hall P Washington Market Park. New or improved parks are being created thanks to LMDC funding. With a fast growing population and many new parks, the Department of Parks and Recreation urgently needs increased maintenance for our local parks. More workers are also needed to compensate for a reduction in the number of WEP workers cleaning the parks. **Responsible Agency**: Department of Parks and Recreation **Supported by:** Friends of City Hall Park	This request cannot be funded in FY 2005. 06	3010202E	**Request:** Provide maintenance funds for East River bikeway/walkway. **Explanation:** The NYC EDC constructed a bikeway/walkway along the East River. No provisions were ever made for the maintenance of this facility which has fallen into serious disrepair. An agency with the capability to properly maintain such a facility should be put in charge of the maintenance and we believe that the Parks Dept. is best suited for this job. We suggest that DPR take over maintenance responsibilities and that it be given additional funding for this task. **Responsible Agency**: Department of Parks and Recreation **Supported by:** Alliance for Downtown New York Seaport Community Coalition	This request cannot be funded in FY 2005. Resubmit for future consideration.
07	3010502E	**Request:** Funding and training of First Pct. Officers in the use of noise meters. **Explanation:** With noise pollution an even increasing problem, we need a better way to respond to such complaints than to rely on a small number of City-wide DEP noise inspectors. These Lower Manhattan arts organizations, therefore, should be funded in proportion to these important artistic and economic realities. **Responsible Agency**: Department of Cultural Affairs **Project in Coordination with:** Department of Cultural Affairs **Supported by:** Lower Manhattan Cultural Council	The agency will try to accommodate this issue within existing resources. 03	3020010A	**Request:** Purchase portable weight and measurement equipment (scale) to weigh trucks in lower Manhattan, esp. Canal Street, Houston, and Broome Streets. **Explanation:** Currently, Manhattan has only one portable scale, and it is used primarily near the George Washington Bridge. Meanwhile, numerous oversized and over-weight trucks go through Lower Manhattan, esp. Canal Street; on their way to the Holland Tunnel. While traffic enforcement is currently deployed there, they are handicapped through lack of proper measuring equipment. This is a dangerous intersection for pedestrian crossing particularly on the south side of 7th Ave. due to cars turning from Bleecker and going down 7th Ave. A NYC DOT study of the intersection at Mulray Square resulted in significant improvements to a similar intersection, CB#2 requests that the NYC DOT install bollards of an appropriate historic design at the north east corner along Bleecker St. and at the south east corner along 7th Ave. and along Bleecker St. **Responsible Agency**: Department of Transportation **Council Districts:** 1, 2, 3	Requests for Traffic Calming Devices should be directed to the appropriate NYCDOT Borough Commissioner. Moreover, in a rental market where the ability of building owners to achieve substantial increases in income is often dependent upon "turning over" apartments, the moderate incapacity of some elderly citizen may be used by some owners to lever the removal of seniors from longtime domiciles and to replace them with higher-paying tenants. For reasons of humanity and as fiscal good sense, it is better to finance help for seniors who need it than to subsidize their residence in nursing homes. **Responsible Agency**: Department for the Aging	This project is currently under review. The machines would be obtained and training offered by St. Vincents Hospital, and the program would allow very rapid response to stabilize patients until EMS personnel arrive. Very often survival is decided by the number of minutes/seconds between onset and the administration of emergency care, and the program would reduce the negative effect to New York realities (heavy traffic, high-rise buildings with access problems) which are largely responsible for making our survival rate so poor. **Responsible Agency**: Health and Hospitals Corporation	The agency will try to accommodate this issue within existing resources. 01	3079807E	**Request:** 1E. Increase the Number Uniformed Officers in the 24th Precinct. **Explanation:** The NYPD authorized uniformed personnel level is 39,110. Many officers are assigned to terrorism and narcotics units, and many have retired. The nunmber of uniformed officers in local precincts has been reduced to minimal levels. To maintain the low crime statistics in the seven major crimes as well as illegal drugs and the quality of life violations, CB7 seeks a restoration of uniformed patrol officers in the 24 Precinct to fully staff community policing, sector patrols and special units - estimated to be an additional 75 officers per precinct. **Responsible Agency**: Police Department	In the Executive Budget Citywide personnel/program /equipment funds are maintained in FY 2005. After the budget is adopted, agencies will schedule specific allocations.
02	3070401E	**Request:** 2E. Maintain and stabilize funding for the after-school programs in public schools and in neighborhood community based organizations. **Explanation:** After-school programs (e.g. extended-day, education, recreation, latch-key programs) in public schools (k through 12) and in neighborhood CBOs are becoming essential services for families. They provide structured programs for children whose parents work and help many students stay at grade level in school and out of harms way. Most these programs are funded by cobbling together private/foundation funds, because State and City funds are decreasing Additional funds are needed for tutors, snacks (sometimes dinner), and trans- portation to the site from schools. Youth in the district have expressed a need for additional after-school slots and opportunities, ranging from recreational services to homework assistance, to job training and opportunities. **Responsible Agency**: Department of Education **Project in Coordination with:** Department of Youth & Community Development	The agency will try to accommodate this issue within existing resources. 03	3079502E	**Request:** 3E. Funding for additional Head Start programs. **Explanation:** According to citywide statistics, families in CD7 are provided with adeq care and Head Start programs. However, the data is deceptive because it is based on district-wide demographics rather than neighborhood-specific needs. High need census tracts show that 30 to 40% of the population is eligible for public assistance but does not have access to Head Start programs. As of September, 2003, both ChildrenÆs Aid at Frederick Douglass Houses and Bloomingdale, who operate in these neighborhoods in CD7, have had Head Start wait lists at least the size of one full class. The need for subsidized child-care remains critical in CD7 with an estimated unmet need to subsidize child care of 471 slots. **Responsible Agency**: Admin for Children's Services	The agency will try to accommodate this issue within existing resources. Illegal drug sales are re-emerging as a significant problem in the 24. One special narcotics unit (module) at the 24 is essential, a second is needed to root out dealers and the organizations that support them. **Responsible Agency**: Police Department	In the Executive Budget Citywide personnel/program /equipment funds are maintained in FY 2005. The libraries serve a vital role as after-school destinations for children and as an access point to computer technology & the Internet. The Lincoln Center Performing Arts Research Library, with its collections of original materials, i an invaluable resource for the local & international arts & educational communities. The NYPLÆs branch & research libraries should be accessible 6, & ideally 7 days a week & have adequate funding for staff, materials and programs. **Responsible Agency**: New York Public Library	The agency will try to accommodate this issue within existing resources. OMB supports the agency's position.
06	3070520E	**Request:** 6E. Restore funding for on-site social services for City-placed residents in commercial hotels. **Explanation:** NYC refers homeless single adults, particularly the clients of HRAÆs HIV/AIDS Services Administration (HASA), to commercial SROs when supportive or permanent housing is not available. The City had provided social workers on-site to help these tenants move on to more appropriate housing, to secure adequate medical care, and to obtain needed services. In 1999 the City moved these workers back to the Welfare Centers, making them much less accessible to the HASA clients, and reducing the amount of services this group receives. With the CityÆs new policy of moving to memoranda of understanding that would involve savings, these should be used to fund an appropriate level of on-site services and the space to provide such service. **Responsible Agency**: Human Resources Administration	This request is not recommended for funding.

The trucks that collected these materials were eliminated. Now, there are not enough trucks to pick-up household trash on the day shift. Garbage is left out, in many areas, for over 36 hours, contributing to rat infestation and generating many complaints. 04	3099106A	**Request:** Fund Shelter for Battered Women. **Explanation:** A shelter for battered women would be greatly greeted in this area. This "quiet" problem is prevelant in our district. The Board's housing plan could serve as a pilot project to demonstrate the possibilities of providing permanent affordable housing. **Responsible Agency**: Department of Housing Preservation & Development **Council Districts:** 7, 9	This capital project is included in the Executive Budget as a line item for FY 2005. 10	3090404A	**Request:** Provide Funds in Community Board 9's Landmarked Districts so that HDFC and TIL Buildings Can Cover the Increased Cost of Repairs that the Designation Creates. **Explanation:** With Landmark designation in Hamilton Heights and Sugar Hill, comes the increased cost of repairs and replacemants to facades, entry ways, steps, windows, roofing etc. By their very nature, HDFC's and TIL's are low and moderate income families who are taking over the management of their buildings. Their operating budgets are not set up for these added costs. Board 9 seeks to assure that HPD will assist or bear the difference. **Responsible Agency**: Department of Housing Preservation & Development **Council Districts:** 7, 9	This project is currently under review. FY 2005 Executive Budget Register of Community Board Budget Priorities

The Register of Community Board Budget Requests for the Executive Budget reports the FY 2005 executive budget status of each of the projects and programs requested by the City's 59 community boards.

The FY 2005 Register is the charter mandated product of a dynamic and cyclical budget process for the 59 community boards. The community boards consult with agencies on the capital and expense needs of the district. After consulting, each community board develops and votes separate priorities for up to 40 capital and 25 expense budget requests which the agencies review and respond to in the **Register of Community Board Requests for the Preliminary Budget** in January**.**

The Mayor's Office of Management and Budget (OMB) reviews these same budget requests and updates the responses for the Executive Budget.

In May, the City Council holds public hearings on the Executive Budget. At these hearings, community boards, community groups and interested citizens may comment on the budget decisions contained in the Register.

In July, OMB publishes **the Register of Community Board Budget Requests for the Adopted Budget** which will inform the boards of the final disposition of their original budget priorities. The Adopted Register will contain responses that reflect the changes made to the Executive Budget by the City Council.

Capital project requests from community boards are site specific, and primarily for infrastructure or public facility improvements. For FY 2005 the boards sought new or continued funding for 1,648 capital projects.

The 59 community boards participate in New York City's expense budget process in two ways. They indicate immediate service needs by submitting expense budget requests with voted priorities. Community boards submitted 1,301 expense requests.

Boards also indicate the general importance of current services by ranking service programs which provide direct local level services. This ranking system informs elected officials and budget decision makers which programs the communities deem most important. For FY 2005 the community boards ranked 85 program activities provided by 24 selected agencies.

For more specific information about programs important to the community boards, refer to each agency's section in the Message of the Mayor for the Executive Capital and Expense Budgets.

Call 212-788-5930 for more information about the community board process including consultations, the service program rankings and the geographic versions of budget documents.

FORMAT OF THE REGISTER

The Register of Community Board Budget Requests is sorted into four versions: Community Board, Borough, Council and Agency. In all versions of the Register, each board's expense requests directly follow their capital requests. The requests are in board order.

03	4059002A	**Request:** Reconstruct Cooper Avenue Underpass and Construct a New Pedestrian Crosswalk for Cooper Avenue, Between 74 Street and 79 Street in Glendale **Explanation:** Underpass along Cooper Avenue, between 74th and 79th Street (under L.I.R.R. and a City Vehicular Bridge) has deterioration of retaining walls, pedestrian steps (used by I.S. 119 students), handrails, curbs and sidewalks. Immediate inspection for safety hazards is needed, so that rehabilitation is preformed promptly. Relative to the need for a pedestrian crosswalk/bridge, for the Copper Avenue Underpass area, students are among the primary users of the stairway leading to the underpass area at approx 75 Street. These students have been at serious risk of being hit by a car or truck as they walk from Middle Village to I.S. 119. **Responsible Agency**: Department of Transportation **Council Districts:** 30 **Budget Line:** HB-C001 **Project Id(s):** HBQC001 **Supported by:** Glendale Property Owners Assoc. Middle Village Property Owners Assc.	This project is included in the Ten Year Plan.
04	4050101A	**Request:** Establish a Community/Recreation Center Primarily Serving the Communities of Maspeth, Middle Village, Elmhurst and Woodside. **Explanation:** With the exception of Maspeth Town Hall, which cannot accommodate extensive recreation, the Maspeth, Middle Villiage, Elmhurst and Woodside communities in and near the CB5Q area do not have a Community/Recreation Center where youth, families, seniors and residents generally can have enjoyment of recreation activities. There is a booming immigrant community as well as the general population that could benefit from such a center. One site that has recently been identified as having much potential is the former Brooklyn Union/ KeySpan Gas Tanks site, located on Grand Ave. between 74 Street and 80 Street. **Responsible Agency**: Department of Parks and Recreation **Council Districts:** 26, 29	Department of Parks and Recreation funds are insufficient for this project. 10	4050402A	**Request:** Reconstruct Eliot Avenue, From Mount Olivet Crescent to 67th Street **Explanation:** Eliot Avenue, between Mount Olivet Crescent and 67th Street, is a vital, but narrow roadway with one tight lane for vehicular traffic. The sidewalks along this part of Eliot Avenue are extremely narrow, posing dangerous conditions for pedestrians. These pedestrian sidewalks are also very deteriorated. This portion of Eliot Ave. is the only roadway and provides the only pedestrian walkway between Grand and Metropolitan Avenues. Priority funding is needed to reconstruct this area, which runs alongside 2 cemeteries. 09	4058311E	**Request:** Assign Sufficient Personnel for Maintenence of Parks in District 5, Queens **Explanation:** Sufficient park workers needed to meet work requirements for the cleaning and maintenance of the 229.7 acres of parks in CD5Q. Currently, there are only 9 Parks staff assigned for this massive parkland. Skilled maintenance workers (there are only 2 for all of Queens Districts 5, 9, 10 & Forest Park) should be funded year-round. Depending almost totally on WEP workers to maintain parks, many of which have seen large investment in recent years, shows a lack of concern for what to many is a most important community asset. Reseeding, aerating and fertilizing ballfields need to be priorities so that large capital expenditures are not wasted. **Responsible Agency**: Department of Parks and Recreation	This request cannot be funded in FY 2005. Resubmit for future consideration.
10	4050301E	**Request:** Provide Sufficient Personnel for Traffic Safety Inspections, Sign Installations, Pavement Markings and Sign Manufacturing **Explanation:** Because of increasingly dangerous local traffic conditions, there has been a need, during the past 5 years, for more traffic safety studies, traffic safety inspections, signals, "All Way Stop" installations, "One Way Conversions" and "No Parking" designations to daylight intersections. Additional traffic device maintenance crews are needed for signage installation pavement markings and sign manufacturing. Vehicles in good repair, including utility trucks, are needed to support current and needed staffing levels. **Responsible Agency**: Department of Transportation	The agency will try to accommodate this issue within existing resources. OMB supports the agency's position.
11	4059504E	**Request:** Fund Additional Street Maintenance for Queens Roadways **Explanation:** In order to have roadways along commercial strips and in residential communities repaired before dangerous conditions arise, the following requests need to be funded: provide one crew for cave-in repair; 2 crews for pothole pothole; 1 crew for concrete repair; and 1 crew for miscellaneous maintenance (ponding conditions, etc.) for Queens. Lawsuits against the City might be greatly reduced if repairs could be done more promptly. **Responsible Agency**: Department of Transportation	The agency will try to accommodate this issue within existing resources. 12	4050302E	**Request:** Fund 6-Day-a-Week Service at Local Libraries **Explanation:** Increased educational demands on students, the fact that many families cannot afford the internet or up-to-date computers and increasing immigrant populations, necessitate that the great majority of local/branch libraries be open 6-days a week. Having libraries open on Saturdays is especially important. **Responsible Agency**: Queens Borough Public Library	The agency will try to accommodate this issue within existing resources. OMB supports the agency's position.
13	4059305E	**Request:** Increase the Number of Sanitation Police and Enforcement Agents **Explanation:** Because of previous lay-offs, there are now fewer San. Police citywide for illegal dumping. Sanitation Police positions should be greatly increased for illegal dumping, especially since they are revenue producing and and dumping is severely hurting business investment. Two agents (SEAs) are needed daily in Q5. Sanitation Police need to do a much better job of catching illegal dumpers. Severe fines, vehicle impoundments, and much more publicity, such as, frequent press releases to TV and radio stations, and major newspapers is needed to make an example of dumpers and curtail illegal dumping. **Responsible Agency**: Department of Sanitation **Supported by:** Ridgewood Property Owners and Civic Assn. OMB supports the agency's position.
17	4059603E	**Request:** Hire Traffic Control Agents, School Crossing Guards and Additional School Safety Officers **Explanation:** The City should earmark funding to hire additional traffic control agents (Traffic Enforcement Agents-Level II), so that heavily travelled Queens intersections can be staffed. This will diminish the need to assign police officers, who are paid more. In consideration of dangerous traffic conditions, funding is needed to hire at least 5 additional school crossing guards for District 5, Queens schools. Most elementary schools have only 1 or 2 School Safety Officers; intermediate schools only have 3 officers. **Responsible Agency**: Police Department	In the Executive Budget Citywide personnel/program /equipment funds are maintained in FY 2005. 18	4059507E	**Request:** Continue Funding of Ridgewood Communicare Health Center **Explanation:** The Ridgewood Communicare Health Center (formerly known as Maspeth Child Health Station) provides important health services to many children, families and senior citizens. Ridgewood and neighboring communities have seen an increase in the number of working poor and residents on public assistance. The need to expand services beyond the hours of Monday to Friday, 8:30am to 4:30pm, should be seriously considered. 18	4090511A	**Request:** Renovate the Forest Park Grenhouse for Education Program **Explanation:** Funds are requested to restore a one hundred year old greenhouse for use as a science curriculum education center. This program would include growing and planting in Forest Park and maintenance by the same individuals. Such a program would also supplement our workforce which has been so drastically reduced. This enhances not only the learning process but develops stewardship in both senior citizens and youth. **Responsible Agency**: Department of Parks and Recreation **Council Districts:** 28, 29, 30, 32	Department of Parks and Recreation funds are insufficient for this project. FY 2005 Executive Budget Register of Community Board Budget Priorities

The Register of Community Board Budget Requests for the Executive Budget reports the FY 2005 executive budget status of each of the projects and programs requested by the City's 59 community boards.

The FY 2005 Register is the charter mandated product of a dynamic and cyclical budget process for the 59 community boards. The community boards consult with agencies on the capital and expense needs of the district. After consulting, each community board develops and votes separate priorities for up to 40 capital and 25 expense budget requests which the agencies review and respond to in the **Register of Community Board Requests for the Preliminary Budget** in January**.**

The Mayor's Office of Management and Budget (OMB) reviews these same budget requests and updates the responses for the Executive Budget.

In May, the City Council holds public hearings on the Executive Budget. At these hearings, community boards, community groups and interested citizens may comment on the budget decisions contained in the Register.

In July, OMB publishes **the Register of Community Board Budget Requests for the Adopted Budget** which will inform the boards of the final disposition of their original budget priorities. The Adopted Register will contain responses that reflect the changes made to the Executive Budget by the City Council.

Capital project requests from community boards are site specific, and primarily for infrastructure or public facility improvements. For FY 2005 the boards sought new or continued funding for 1,648 capital projects.

The 59 community boards participate in New York City's expense budget process in two ways. They indicate immediate service needs by submitting expense budget requests with voted priorities. Community boards submitted 1,301 expense requests.

Boards also indicate the general importance of current services by ranking service programs which provide direct local level services. This ranking system informs elected officials and budget decision makers which programs the communities deem most important. For FY 2005 the community boards ranked 85 program activities provided by 24 selected agencies.

For more specific information about programs important to the community boards, refer to each agency's section in the Message of the Mayor for the Executive Capital and Expense Budgets.

Call 212-788-5930 for more information about the community board process including consultations, the service program rankings and the geographic versions of budget documents.

FORMAT OF THE REGISTER

The Register of Community Board Budget Requests is sorted into four versions: Community Board, Borough, Council and Agency. In all versions of the Register, each board's expense requests directly follow their capital requests. The requests are in board order.

LAYOUT OF CAPITAL BUDGET REQUESTS PAGES
