FY 2004 Executive Budget Register of Community Board Budget Priorities

The Register of Community Board Budget Requests for the Executive Budget reports the FY 2004 executive budget status of each of the projects and programs requested by the City's 59 community boards.

The FY 2004 Register is the charter mandated product of a dynamic and cyclical budget process for the 59 community boards. The community boards consult with agencies on the capital and expense needs of the district. After consulting, each community board develops and votes separate priorities for up to 40 capital and 25 expense budget requests which the agencies review and respond to in the **Register of Community Board Requests for the Preliminary Budget** in January.

The Mayor's Office of Management and Budget (OMB) reviews these same budget requests and updates the responses for the Executive Budget.

In May, the City Council holds public hearings on the Executive Budget. At these hearings, community boards, community groups and interested citizens may comment on the budget decisions contained in the Register.

In July, OMB publishes **the Register of Community Board Budget Requests for the Adopted Budget** which will inform the boards of the final disposition of their original budget priorities. The Adopted Register will contain responses that reflect the changes made to the Executive Budget by the City Council.

Capital project requests from community boards are site specific, and primarily for infrastructure or public facility improvements. For FY 2004 the boards sought new or continued funding for 1,712 capital projects within 27 agencies.

The 59 community boards participate in New York City's expense budget process in two ways. They indicate immediate service needs by submitting expense budget requests with voted priorities. Community boards submitted 1,281 expense requests to 38 agencies.

Boards also indicate the general importance of current services by ranking service programs which provide direct local level services. This ranking system informs elected officials and budget decision makers which programs the communities deem most important. For FY 2004 the community boards ranked 85 program activities provided by 25 selected agencies.

For more specific information about programs important to the community boards, refer to each agency's section in the Message of the Mayor for the Executive Capital and Expense Budgets.

Call 212-788-5930 for more information about the community board process including consultations, the service program rankings and the geographic versions of budget documents.

FORMAT OF THE REGISTER

The Register of Community Board Budget Requests is sorted into four versions: Community Board, Borough, Council and Agency. In all versions of the Register, each board's expense requests directly follow their capital requests. The requests are in board order.

LAYOUT OF CAPITAL BUDGET REQUESTS PAGES

Column 1: Priority Number

The fourth and fifth digits represent the fiscal year in which the project was first submitted and the last two digits are the request number. The letter A in the eighth space indicates a capital budget request.
