

NEW YORK CITY  
HUMAN RESOURCES ADMINISTRATION

# **DISTRICT RESOURCE STATEMENT**

*Fiscal Years 2002 and 2003*

Verna Eggleston, Commissioner

Swati Desai, Executive Deputy Commissioner  
Office of Program Reporting Analysis and Accountability

Lisa Garabedian, Coordinator

The District Resource Statement is developed in support of the city charter requirements regarding the dissemination of geographic, fiscal, and service information to the community boards and public officials as coordinated by the New York City Office of Management and Budget.

## **HUMAN RESOURCES ADMINISTRATION**

The New York City Human Resources Administration (HRA) spearheads New York City's Welfare Reform initiatives, and serves a diverse group of New Yorkers through a wide range of social service programs. HRA's mission is to make work central in the lives of every able-bodied New Yorker receiving public assistance. HRA's programs also ensure that those needy individuals who meet eligibility requirements are provided food, shelter, temporary financial assistance, medical care, counseling and other essential services.

HRA assists individuals and families in achieving and sustaining their maximum degree of self-sufficiency. HRA provides temporary assistance and employment services or referrals at 28 Job Centers. It also offers medical and food assistance services at 24 Medicaid offices and 25 Food Stamp offices. Support services to individuals with AIDS and HIV-related illnesses are provided through 11 centers, protective services to adults through 6 centers, and services to victims of domestic violence through 35 state licensed residential programs and 11 non-residential programs. HRA also determines the home care eligibility of disabled or frail Medicaid recipients through 9 Community Alternative Systems Agency offices and contracts with 88 home care provider agencies.

HRA provides services through its major divisions, the Family Independence Administration (FIA), Medical Assistance Programs (MAP), Domestic Violence and Emergency Intervention Services, HIV/AIDS Services Administration (HASA), and The Office of Health and Mental Health Services (OHMHS).

The HRA DISTRICT RESOURCE STATEMENT provides FY2002 and FY2003 information for each community district on demographic and socioeconomic data, HRA income support population and programs and services provided through contracts with service providers.

## INSTITUTIONAL STRUCTURE

The Human Resources Administration (HRA) provides a wide range of social service programs to ensure that needy individuals who meet eligibility requirements are provided adult protective services, child care, counseling and housing support, housing support for people with HIV and AIDS, eviction prevention, food stamps, home care and long term care for the elderly and disabled, medical assistance and temporary public assistance. Federal and state laws and regulations that determine eligibility for services control much of the activity.

HRA contains five social services components: the Family Independence Administration (FIA); the Medical Assistance Programs (MAP); the HIV/AIDS Services Administration (HASA); the Office of Domestic Violence and Emergency Intervention Services, and the Office of Health and Mental Health Services (OHMHS).

Other HRA Offices include Staff Resources, Contracts and Procurement, Finance, Legal Affairs, Management Information Systems, Constituent and Community Affairs, Policy and Program Development, Program Reporting Analysis and Accountability, Public Information and Communications, Refugee and Immigrant Affairs, Revenue and Investigation, and General Support Services.

The Family Independence Administration coordinates HRA's welfare reform efforts through administering Job Center Operations and the Food Stamps Program for New York City, including temporary financial assistance and employment initiatives for public assistance applicants and recipients. Through directly operated and contracted services, FIA programs are designed to promote the maximum self sufficiency and personal responsibility. FIA also coordinates policy, quality initiatives, facilities management, training, and contract management for Job Centers and other FIA sites located throughout the five boroughs.

The Medical Assistance Programs provides assistance to a multitude of medically needy individuals and families in New York City. Through the provision of health insurance program coverage including Medicaid, Family Health Plus and Child Health Plus, access to doctors, hospitals, dentists, optometrists and other healthcare services are made available at little or no cost to those meeting defined eligibility criteria. Included in this coverage is access to pharmacy services. Through a combination of its eligibility and specialized offices including Home Care Services, Nursing Home Care Services, Children's Health Insurance, Adult Protective Services and Family Homes for Adults, MAP staff provide vital services to nearly two million New Yorkers each year. In the absence of these services, it is estimated

that nearly one and a half million low income individuals, many of them children, would be unable to otherwise afford or obtain adequate healthcare.

HIV/AIDS Services Administration (HASA) is the primary mechanism for expediting access to essential social services and entitlements to eligible persons with AIDS or advanced HIV illness and their families. HASA provides specialized intake need assessment, direct linkages to temporary financial assistance, Medicaid, Food Stamps, Supplemental Security Income (SSI) or SSI Disability Income, home care, and homemaking services, emergency, transitional and permanent housing services, and intensive case management and referral to community-based resources for a variety of other services.

The Office of Domestic Violence and Emergency Intervention Services is comprised of two components through which it provides emergency shelter and social services to victim of domestic violence (ODV) and services to victims in crisis through emergency intervention or food assistance (OEIS).

The Office of Health and Mental Health Services (OHMHS) provides psychiatric evaluation, crisis intervention, and housing eligibility services to people served by other components of HRA. OHMHS is also responsible for developing and implementing policies and programs relating to the interface between substance abuse treatment and the Agency's welfare reform initiatives.

COMMUNITY DISTRICT DEMOGRAPHICS  
AND  
EXPLANATION OF INDICATORS

**CENSUS DATA**

Demographic and socioeconomic indicators were provided by the New York Department of City Planning for New York City, boroughs, and community districts from the 2000 census.

**INCOME SUPPORT POPULATION DATA**

Data Source for Public Assistance, Medical Assistance, SSI, and Food Stamps is the Welfare Management System, as of October 2001 and 2002.

**Public Assistance:** All participants receiving grants were distributed among the community districts by their address. Included is the number of participants on public assistance as well as for the entire Income Support population (PA, MA, and SSI) in each community district; the change in the number of persons on public assistance from October 2001 and 2002, as well as that of the total Income Support Population; and the percent of the total population in the community district on public assistance, as well as the percent of the total Income Support Population.

**Food Stamps:** FS/PA are the public assistance participants who receive authorization for food stamps. FS/NPA are persons receiving authorization for food stamps who are not eligible for public assistance. Persons issued food stamps authorizations are distributed among the community district by their address. (The dollar value of food stamps does not appear in the HRA budget, as the value of the stamp is paid by the U.S. Department of Agriculture.)

**Medical Assistance:** New York City's Medicaid-eligible persons were allocated by eligibility category to community districts according to their address.

**CONTRACT SERVICES** - Planned for fiscal year 2003

The contracts with voluntary agencies are located within the community district of the contractor's location. The DRS includes a summary of human service contracts on the citywide, borough and community district level based on the Contractor's address. Information on the services includes type of service, contractual dates, contractor name and address and contract amount. (*Contract addresses may not*

*accurately represent the areas served by the contract since address may only be an administrative address and also many contracts serve multiple community districts, as well as multiple boroughs.)*

**DIRECT SERVICE OFFICES**

The direct service offices run by HRA program areas are broken down by borough. Noted is the community district of their location although many of the direct service offices serve multiple community districts and multiple boroughs.
