

## NYC Build it Back Repair

### Registered Contractors – Choose Your Own Contractor Option

Last updated – 12/5/13

*The contractors listed below have registered for the NYC Build it Back Repair Choose Your Own Contractor program at [www.nyc.gov/bibcontractorinfo](http://www.nyc.gov/bibcontractorinfo). Build it Back Repair has reviewed the contractors' information and determined that the listed contractors have met all of the program requirements (program requirements can be reviewed [here](#)).*

***You should NOT consider a contractor's placement on this list as a recommendation by the City of New York on the contractor's quality of work, and the contractor selection ultimately rests with the homeowner. The New York City Department of Consumer Affairs recommends that you ask for a list of previous clients before selecting the contractor. Call the previous clients to find out how the contractor handled their home improvement jobs.***
