Job Description
The New York City Department of Correction is seeking a candidate to serve as Director, Software Development and Applications Support. The ideal candidate is a seasoned developer with supervisory experience, able to manage a wide range of projects. The successful applicant will supervise the development of new applications, the porting of existing legacy applications to a common platform, and the rewrite of legacy applications. Recent experience developing in Open Source Java, including JSF (MyFaces/Rich Faces, Spring, Hibernate, Jasper); as well as experience working in both DB2/Linux and SQL/Windows environments is required. Superior verbal and written communication skills are a must.

Qualification Requirements
1. Six (6) years of progressively responsible full-time paid experience supervising or administering computer operations involving a large-scale third generation computer at least 18 months of which shall have been in a managerial capacity.

2. Education at an accredited college or university may be substituted for the general experience described above (but not for the 18 months of managerial experience described above) at the rate of one year of college for 6 months of experience up to a maximum of 4 years college for 2 years or experience. In addition a Master of Business Administration, Master of Public Administration or any other Master's Degree in Management of Administration may be substituted for an additional year of general work experience. However, all candidates must possess the 18 months of administrative or managerial experience or managerial experience described above.

Preferred Qualifications
1. A bachelor's degree from an accredited college in Computer Science and at least six years of full-time satisfactory professional experience in Software Development, at least two years of which must have been in a managerial or executive capacity or supervising programmers and developers; or

2. A combination of education and/or experience equivalent to "1" above. However, all candidates must have the eighteen months of administrative, managerial, executive or supervisory experience described in "1" above.
