

J2EE Lead Developer

The New York City Housing Authority's Office of the Chief Information Officer is seeking a J2EE Lead Developer to design and build interfaces for integration efforts involving various disparate systems, with minimum direction and the broadest scope for the exercise of independent initiative and judgment. The selected candidate will implement secure and efficient service oriented architecture and guide and mentor other members of the development team. Responsibilities include, but are not limited to the following:

1. Participate in design/architecture meetings.
2. Provide technical estimates.
3. Lead J2EE application development efforts.
4. Design, develop, modify, test and implement SOAP Web Services.
5. Develop J2EE applications to accommodate business needs.
6. Oversee the investigation and resolution of application issues.

QUALIFICATION REQUIREMENTS:

1. A baccalaureate degree from an accredited college, including or supplemented by 24 semester credits in computer science or a related computer field and two years of satisfactory full-time computer software experience in computer systems development and analysis, applications programming, database administration, systems programming, data communication, including one year in a project leader capacity or as a major contributor on a complex project; or
2. A four year high school diploma or its educational equivalent and six years of satisfactory full-time computer software experience as described in "1" above, including one year in a project leader capacity or as a major contributor on a complex project; or
3. Education and/or experience equivalent to "1" or "2" above. College education may be substituted for up to two years of the required experience in "2" above on the basis that 60 semester credits from an accredited college is equated to one year of experience. A masters degree in computer science or a related computer field may be substituted for one year of required experience in "1" or "2" above. However, all candidates must have at least a four-year high school diploma or its educational equivalent and at least one year of satisfactory full-time experience in a project leader capacity or as a major contributor on a complex project.

EDUCATION AND EXPERIENCE PREFERRED:

1. Seven years hands-on experience in J2EE development, with a minimum of two years working with SOAP based web services.
2. Experience writing database stored procedures and queries using PL/SQL.
3. Extensive knowledge of SOAP, XML, XSLT, XSD and J2EE technologies (JSP, JDBC, EJB, JNDI, JMS).
4. Expert knowledge of the HTTP protocol and web services security.
5. Experience in Java Server Faces (JSF) development, JSP, HTML, CSS, AJAX and Javascript.
6. Experience in at least one of the following application servers: Jboss/Tomcat, WebSphere or WebLogic.
7. Working knowledge of Linux/Unix environments.

SKILLS DESIRED:

1. Effective verbal and written communication skills.
2. Strong technical and leadership abilities.

Interested candidates may fax cover letter, resume, to (212) 306-5194, e-mail to HR.Recruitment@nycha.nyc.gov or mail to:
