Maximo Developer Team Leader -
Business Solution Technology

JOB DESCRIPTION:

The New York City Housing Authority is seeking a J2EE Developer to work as part of its post production support team and function as the technical lead. The selected candidate will direct a team of developers providing hands-on, day-to-day support and enhancement of the agency's Maximo (Work Order Management) System. Responsibilities will include but are not limited to the following:

1. Resolve application, interface, workflow, reporting and data integrity issues.
2. Assume lead role in release migration, performance testing and tuning, upgrade and patch installation and testing.
3. Support and enhance integration components between applications, including Java and PL/SQL.
4. Develop plans for improving the stability and supportability of existing package and custom applications.
5. Provide production support to analyze day-to-day issues and respond quickly to resolve problems, minimizing the business impact.

QUALIFICATION REQUIREMENTS:

1. A master's degree in computer science from an accredited college and three years of progressively more responsible, full-time, satisfactory experience using information technology in computer applications programming, systems programming, computer systems development, data telecommunications, data base administration, planning of data/information processing, user services, or area networks at least 18 months of this experience must have been in an administrative, managerial or executive capacity in the areas of computer applications programming, systems programming, computer systems development, data telecommunications, database administration, or planning of data processing or in the supervision of staff performing these duties; or
2. A baccalaureate degree from an accredited college and four years of experience as described in"1" above; or
3. A four-year high school diploma or its educational equivalent approved by a State's department of education or recognized accrediting organization and six years of experience as described in "1" above; or
4. Satisfactory combination of education and experience equivalent to "1", "2" or "3" above. However, all candidates must have at least a four-year high school diploma or its educational equivalent approved by a State's department of education or recognized accrediting organization and must possess at least three years of experience as described in "1" above, including the 18 months of administrative, managerial, executive or supervisory experience as described in "1" above.

<u>Note:</u> The following types of experience are not acceptable: superficial use of preprogrammed software without complex programming, design, implementation or management of the product; use of word processing packages; use of a hand held calculator; primarily the entering or updating of data in a system; the operation of data processing hardware or consoles.

QUALIFICATIONS DESIRED:

1. Seven or more years of J2EE development experience.
2. Expert knowledge of client side programming in JAVA, HTML, JAVAScript and JAVA Applets.
3. Extensive experience in developing and supporting software solutions in Oracle PL/SQL or a comparable relational database platform; configuration and support using WebSphere or WebLogic.

SKILLS PREFERRED:

1. Extensive knowledge of JAVA development and JAVA class file structure.
2. Proven ability to produce technical designs and/or code for JAVA extensions.
3. Extensive knowledge of server side programming.
4. Strong knowledge of Maximo, including the Maximo Application Designer, Maximo schemas/tables/ relationships and Maximo Workflow Designer.
5. Experience in writing Maximo custom classes (not just Java classes).

Interested candidates may fax cover letter, resume, to (212) 306-5194, e-mail to HR.Recruitment@nycha.nyc.gov or mail to:
