Alfred D'Albero	Clifton Avenue
Anthony Fontaino	227 Virginia Avenue
John Rumolo	223 St. Mary's Avenue

Meeting called to order at 7:30 p.m.

Discussion about Willow Avenue sewer project currently active. Concerns about possible leakage of pollutants from the Willow Avenue BUG clean-up site into the sewer lines under construction. Residents would like to see a legitimate study showing no pollution or seepage into the sewer site. Chairman Guzzo suggested that residents attend a full board meeting of community board one and bring their concerns about the project to the full board.

1077 Bay Street-currently an excavated building site, which continually fills with water after rains. Discussion about having water pumped out by owner, as has occurred in the past.

Downtown SI signs still have NOT been removed from poles on Bay Street in Rosebank/Fort Wadsworth/Shore Acres area.

Meeting adjourned 8:42.p.m.
