There was no Quorum for the meeting, however following issues were discussed and will be voted on in the next meeting.

1. Zoning for Bicycle Parking: The Department of City Planning is proposing a text amendment to the Zoning Resolution to require indoor, secure, long term bicycle parking in new multi-family residential, community facility, and commercial buildings. The proposed text amendment would provide for bicycle parking and storage both at home and in the workplace, with standards that serve the needs of cyclists while providing flexibility to accommodate the needs of the development.

Item will be voted in next meeting as no quorum in this meeting.

2. Tot Lots: The construction of Play equipment, safety surfacing, and general Site work at Silver Lake Park (Between Forest Avenue & Eddy Street) and Parent Park at Clove Lake Park. (Between Park Drive and Victory Blvd). The purpose of this project is to construct Tot lot play areas for small children and to construct a sitting area for parents. Costs to construct will be \$ 385, 00 for each Tot lot.
2. Construction of a multi-use Greenway Trail in Clove Lakes Park. To provide bicycle and pedestrian enhancements within the park, and to complete a portion of the Staten Island Greenway System as part of the Greenway Plan for NYC. The trail is roughly 1.6 miles long and bisects a natural wooded area with some steep grades. The project will reconstruct existing asphalt pavement and construct stone screening paths in lieu of existing dirt paths. Total cost of the project will be \$ 2.5 Million.

Respectfully submitted, Sunny Jain
