

Preliminary Summary of Map Actions (SOMA)

To assist communities in maintaining the Flood Insurance Rate Map (FIRM), the Department of Homeland Security's Federal Emergency Management Agency (FEMA) develops a SOMA to document previous Letters of Map Change (LOMCs) (i.e., Letters of Map Amendment [LOMAs], Letters of Map Revision [LOMRs]) that will be superseded when the FIRM becomes effective. Information on LOMCs is presented in the following four categories: (1) LOMCs for which results have been included on the FIRM; (2) LOMCs for which results could not be shown on the FIRM because of scale limitations or because the LOMC issued had determined that the lots or structures involved were outside the Special Flood Hazard Area (SFHA) as shown on the FIRM; (3) LOMCs for which results have not been included on the FIRM because the flood hazard information on which the original determinations were based is unavailable or is being superseded by new flood hazard information; and (4) LOMCs issued for multiple lots or structures where the determination for one or more of the lots or structures cannot be revalidated through an administrative process like the LOMCs in Category 2 above.

LOMCs in Category 2 will be revalidated through a formal process that includes issuing a single determination letter that identifies and reaffirms the validity of previously issued LOMCs. This letter will be sent to your community shortly before the effective date of the FIRM.

The LOMCs listed in Category 4 include in or out of the SFHA determinations for multiple lots or structures. When one or more of the determinations in the original letter has changed, the letter cannot be revalidated through an administrative process like the LOMCs in Category 2 above. Instead, a detailed review of the data previously submitted for the LOMC request is required. This process is initiated on a case by case basis if a formal application is made by the affected property owner or lessee.

Your community should be aware that the LOMC process is dynamic and FEMA is reviewing LOMC applications regularly. To complete production of the Preliminary FIRMs which includes incorporating the effects of "mappable" LOMRs issued since the last map effective date, a specific cutoff date of November 18, 2013 was established. FEMA will address any approved LOMRs issued after the cutoff date when the final SOMA is distributed. If your community has concerns regarding a specific case, please submit the LOMR case number, as well as any appropriate documentation, to our FEMA Regional Office at 26 Federal Plaza, Suite 1337, New York, New York 10278-0002 before the end of the 30-day comment or statutory 90-day appeal period.

PRELIMINARY SUMMARY OF MAP ACTIONS

Community: NEW YORK, CITY OF

Community No: 360497

To assist your community in maintaining the Flood Insurance Rate Map (FIRM), we have summarized below the previously issued Letter of Map Change (LOMC) actions (i.e., Letters of Map Revision (LOMRs) and Letters of Map Amendment (LOMAs)) that will be affected by the preparation of the enclosed revised FIRM panel(s).

1. LOMCs Incorporated

The modifications effected by the LOMCs listed below have been reflected on the Preliminary copies of the revised FIRM panels. In addition, these LOMCs will remain in effect until the revised FIRM becomes effective.

LOMC	Case No.	Date Issued	Project Identifier	Old Panel	New Panel
			NO CASES RECORDED		

2. LOMCs Not Incorporated

The modifications effected by the LOMCs listed below have not been reflected on the Preliminary copies of the revised FIRM panels because of scale limitations or because the LOMC issued had determined that the lot(s) or structure(s) involved were outside the Special Flood Hazard Area, as shown on the FIRM. These LOMCs will be revalidated free of charge 1 day after the revised FIRM becomes effective through a single revalidation letter that reaffirms the validity of the previous LOMCs.

3. LOMCs Superseded

The modifications effected by the LOMCs listed below have not been reflected on the Preliminary copies of the revised FIRM panels because they are being superseded by new detailed flood hazard information or the information available was not sufficient to make a determination. The reason each is being superseded is noted below. These LOMCs will no longer be in effect when the revised FIRM becomes effective.

LOMC	Case No.	Date Issued	Project Identifier	Reason Determination Will be Superseded
LOMA	199105636FIA	09/11/1984		1
LOMA	199105637FIA	09/11/1984		1

1. Insufficient information available to make a determination.
2. Lowest Adjacent Grade and Lowest Finished Floor are below the proposed Base Flood Elevation.
3. Lowest Ground Elevation is below the proposed Base Flood Elevation.
4. Revised hydrologic and hydraulic analyses.
5. Revised topographic information.

4. LOMCs To Be Redetermined

The LOMCs in Category 2 above will be revalidated through a single revalidation letter that reaffirms the validity of the determination in the previously issued LOMC. For LOMCs issued for multiple lots or structures where the determination for one or more of the lots or structures has changed, the LOMC cannot be revalidated through this administrative process. Therefore, we will review the data previously submitted for the LOMC requests listed below and issue a new determination for the affected properties after the effective date of the revised FIRM.
