**RELATED TAX LOTS FORMING A UNIT**  
**FOR CONSOLIDATED REVIEW**

**INSTRUCTIONS:** You must notify the Tax Commission that two or more non-condo tax lots, operated as an economic unit or otherwise related for purposes of valuation, should be reviewed together as a consolidated unit. The lots must be contiguous or near one another and under common ownership or control. Mark the List of Related Tax Lots, provided by the Tax Commission, informing you of the units for consolidated review that you or your firm reported in 2011. File a marked copy of that list on or before **March 26, 2012** to notify the Tax Commission of the related lots on which you seek consolidated review in 2011. File Form TC166 on or before **March 26** to report each new consolidated unit of related lots. If a consolidated income and expense statement was filed, the covered lots must be on the marked list or Form TC166. File for every related lot within a unit to obtain a consolidated hearing and review. Failure to file the marked list or TC166 will result in deletion from our records of consolidated units reported in 2011. File TC166 separately; do not attach it to an application form. If you use TC166 to report related lots, check the appropriate boxes below to indicate the status of the unit as new, the same as 2011, or changed. Non-filing, late filing or mistakes in the tax lots identified as a unit may result in denial or deferral of review if consolidated review is required. Sign and date the form below. Make a copy and present it when filing the original to obtain proof of filing.

**Do not include any condominium lots on Form TC166 or your marked List of Related Tax Lots.** Condominium hearings are scheduled according to the condominium number assigned by the Department of Finance, not TC166. Delete all condominium lots when you mark your 2011 List of Related Tax Lots.
