

Accessing Lists of TLC Current Licensees

A Quick Reference Guide for Viewing and Using Excel Lists of TLC Current Licensees that can be found on the TLC Website

The New York City Taxi and Limousine Commission has valuable information available on its website. TLC rules, application forms, Industry information and Frequently Asked Questions (FAQs) are among the useful pieces of material readily available at the click of the mouse.

In addition, the TLC uploads DAILY lists of all our current licensees by license type in Microsoft Excel. These lists can be opened/viewed and also downloaded/saved by anyone visiting the website.

Using the TLC list of Current Licensees, you can verify the current status of a TLC-licensed entity with just a few simple steps.

IMPORTANT FOR BASE/BUSINESS OWNERS: You can use these lists in lieu of the current Licensee Link portal. In fact, they give you even more information because your Licensee Link does not allow you to view the license status of Drivers, but you can download a Drivers List from the website. Using these lists will allow you to do a comprehensive search of all your drivers and vehicles before you dispatch them to provide service to the riding public.

So remember - downloading lists on a daily basis of current licensees will allow base owners, managers and vehicle owners to have the most up to date list (as of the close of business the prior business day) of TLC licensed business entities, vehicles and drivers.

Please note - these lists only include those TLC licensees who are allowed to provide services as of the prior business day. Anyone not on these lists should not be operating unless their status has been confirmed.

So let's take a minute to walk through the steps to access the Current Licensees and Open Summonses for TLC Licensees lists. Please go to the next page for a step-by-step explanation of how to access these lists on your home or work computer.

Please turn this page over for page 2

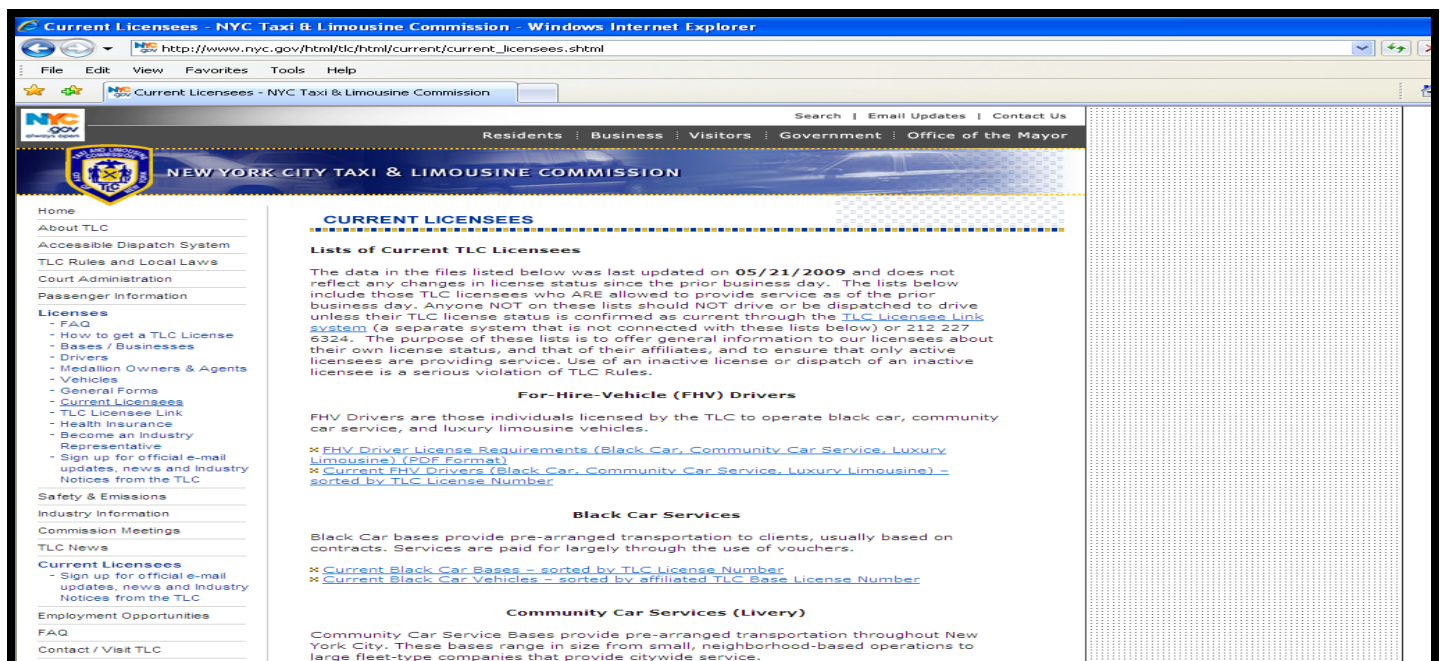

-- Open a web browser on your computer and go to the TLC website: www.nyc.gov/tlc

Click on the **Current Licensees** link on the navigation bar to get to the main screen listing all current licensed TLC entities (look for the arrow on the left hand side of the picture below).

You will now be on a page of the TLC Website, which is headed “CURRENT LICENSEES”

You can also reach this page directly by entering http://nyc.gov/html/tlc/html/current/current_licensees.shtml into your web browser.

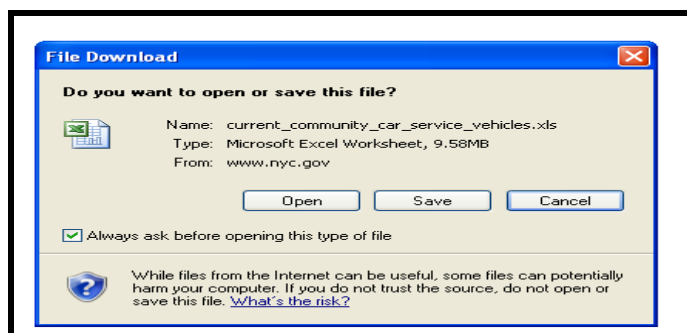

On this page choose the list you would like to open or download and save.

For the purposes of this demonstration, we are going to open and save the list titled: *Current Community Car Service Vehicles – sorted by affiliated TLC base License number*

The screenshot shows the TLC website's navigation menu on the left, including links for Vehicles, General Forms, Current Licensees, TLC Licensee Link, Health Insurance, and more. The main content area is divided into several sections, each with a title and a list of links:

- For-Hire-Vehicle (FHV) Drivers**: FHV Drivers are those individuals licensed by the TLC to operate black car, community car service, and luxury limousine vehicles. Links include: [FHV Driver License Requirements \(Black Car, Community Car Service, Luxury Limousine\) \(PDF Format\)](#), [Current FHV Drivers \(Black Car, Community Car Service, Luxury Limousine\) – sorted by TLC License Number](#).
- Black Car Services**: Black Car bases provide pre-arranged transportation to clients, usually based on contracts. Services are paid for largely through the use of vouchers. Links include: [Current Black Car Bases – sorted by TLC License Number](#), [Current Black Car Vehicles – sorted by affiliated TLC Base License Number](#).
- Community Car Services (Livery)**: Community Car Service Bases provide pre-arranged transportation throughout New York City. These bases range in size from small, neighborhood-based operations to large fleet-type companies that provide citywide service. Links include: [Current Community Car Service Bases – Sorted by TLC License Number](#), [Current Community Car Service Vehicles – Sorted by affiliated TLC Base License Number](#).
- Luxury Limousine Services**: Luxury Limousine Bases provide pre-arranged premium transportation to clients throughout New York City. Links include: [Current Luxury Limousine Bases – Sorted by TLC License Number](#), [Current Luxury Limousine Vehicles – sorted by affiliated TLC Base License Number](#).
- Commuter Van Services**: Commuter Van Authorizations provide pre-arranged transportation to passengers throughout New York City on a regular daily basis. They are authorized to operate within specific geographic areas. Links include: [Current Commuter Van Authorizations – sorted by TLC License Number](#), [Current Commuter Van Vehicles – sorted by affiliated TLC Base License Number](#).
- Paratransit Services**: Paratransit Bases provide pre-arranged transportation for passengers with disabilities. Most of the service takes individuals to and from health care facilities.

Once you click the link to access the list needed you will see a popup similar to the one below. The file must be saved to your computer to access the Excel functions of the list. SO PLEASE CLICK SAVE (and choose the destination on your computer to which to save to).

Please note –

- The file changes each business day (before saving you may want to add the date of your download to the file name e.g. current_community_car_service_vehicles_05.18.09)
- The data in the list is only of licensees who are in a current status. Licensees that are suspended or have been revoked are not on these lists and should not be used until their status is verified.

Please turn this page over for page 4

Once the list has been downloaded you can open directly through Excel and use the functions of Excel, or transfer the data to another application such as Microsoft Access to create reports, etc.

Through Excel you have the option of using the Edit/Find function to enter a specific License Number, VIN, DMV License Plate, etc to locate the information for a current licensee.

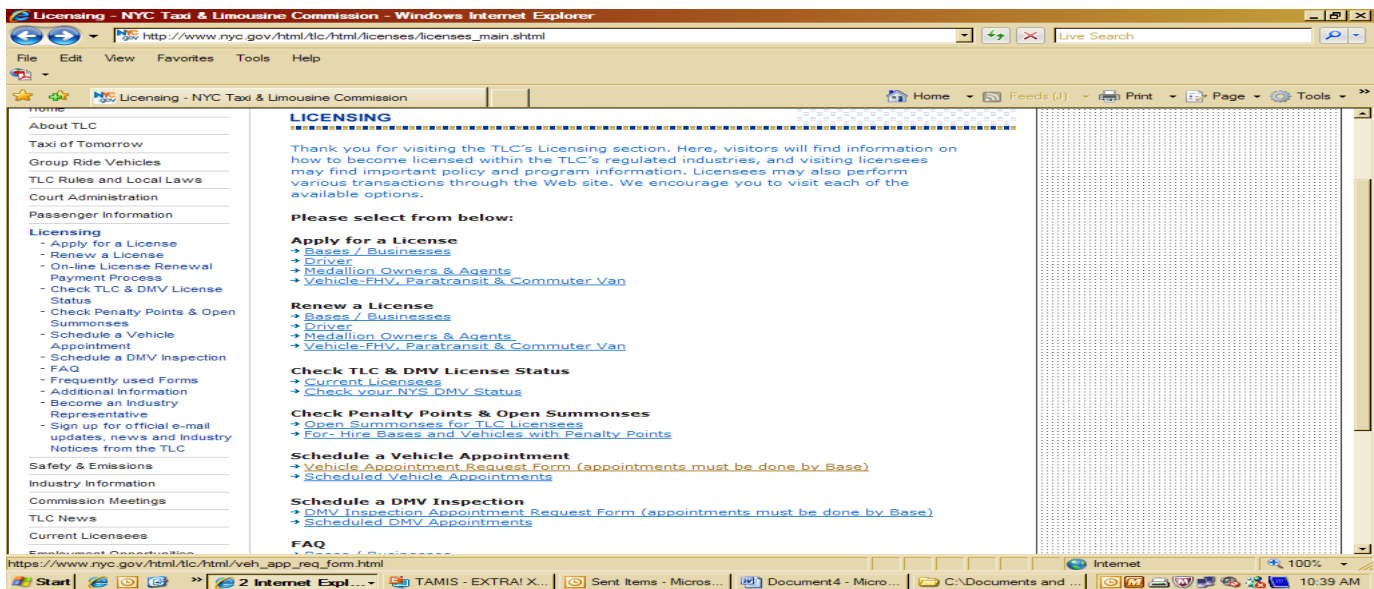

Below is a screenshot of a portion of the downloaded list.
