FOR IMMEDIATE RELEASE

Industry Notice #01-10

March, 2001

TLC EXTENDS COMPLIANCE DATE FOR DAYLIGHT SAVINGS TIME METER CONVERSION

This notice is to advise all medallion taxicab owners that, as of 2 a.m. on Sunday, April 1, 2001, Daylight Savings Time will officially begin. In order to facilitate the programming of all Taxi and Limousine Commission licensed medallion taxicab taximeters, an extension for the date of compliance with Owners Rule 1-25(a) (5) has been granted, starting at the aforementioned date and time, and expiring on Sunday, April 15, 2001 at 11:59 p.m.

Following the conclusion of this extension period, any medallion taxicab found to be operating with a taximeter that does not reflect the conversion to Daylight Savings Time shall be subject to the following enforcement action:

- Confiscation of Rate Card
- Summons for violation of Owners Rule 1-25(a) (5) – indicating the failure to have the meter programmed to reflect the correct time.
- Notice to report to the Woodside Meter Operations Unit after the appropriate correction has been made.

Until the taximeter has been adjusted by a licensed meter shop to reflect Daylight Savings Time, the following "Night Differential" fare adjustment is to be observed by all owners and drivers:

- During evening hours, the fare to be charged must be the fare shown on the face of the meter.
- During morning hours, the "Night Differential" may not be charged after 6 a.m. regardless of the amount showing on the meter.

When the meter has been converted to reflect the correct Daylight Savings Time, the rate charged will, at all times, be the fare shown on the meter.
