FOR IMMEDIATE RELEASE
 Industry Notice #02-31
 December 05, 2002

TLC APPROVES NEW CREDIT CARD TAXIMETERS FOR TESTING

TLC Commissioner/Chair Matthew W. Daus announced that the Taxi and Limousine Commission ("TLC") has approved for testing three new credit card taximeters as part of pilot programs. The three taximeters, the Pulsar 2020R, Centrodyne Silent 600 and Gleike Credit Card Minimeter, will each be tested in up to 250 medallion taxicabs for a six (6) month period. At the end of the test period, the TLC may permanently approve their use.

The TLC has previously approved the Taxitronic TX-36 credit card taximeter, which is presently installed in 275 taxicabs. Each of these credit card taximeters will accept all major credit cards for the payment of fares, tolls and tips. The credit card swipe mechanism for each model is located in the rear passenger compartment, and the driver will not have access to the passenger's credit card.

The following participating taximeter manufacturers may be contacted directly for additional information concerning their approved products:

Pulsar Technology Systems, Inc.
 Rudolph Robinson
 27-20 42nd Road
 L.I.C., NY 11101
 (718) 361-9292
