

Matthew W. Daus, Commissioner/Chair

Industry Notice # 07-15  
For Immediate Release

July 30, 2007

***Important Notice:  
PUSH BARS, GRILL GUARDS, BUMPER  
GUARDS AND OTHER UNNECESSARY  
PROJECTIONS PROHIBITED!***

The New York City Taxi and Limousine Commission (TLC) wishes to remind all medallion owners bringing in new vehicles for hack-up that TLC Owners Rule 3-03e1ii states the following:

*The front of the taxi, and especially the bumper, should be designed with strong emphasis on reducing injury to pedestrians. There shall be no unnecessary projections such as rigid hood ornaments.*

This means that no push bars, grill guards, or bumper guards are permitted. Vehicles presented for hack-up with the aforementioned prohibited equipment will be issued a 10-day notice to correct the condition, prior to taking enforcement action.
