

Matthew W. Daus, Commissioner/Chair

INDUSTRY NOTICE #07-24
For Immediate Release

September 28, 2007

**REMINDER -- TAXICAB TECHNOLOGY
PROGRAM REMAINS ON SCHEDULE**

REMINDER -- NEW LOGO MARKINGS DUE!

The New York City Taxi and Limousine Commission (TLC) wishes to remind all medallion taxicab licensees that, as of each medallion taxicab vehicle's next scheduled inspection on or after October 1, 2007, they must:

- A) Be equipped with the new Taxicab Passenger Enhancement Program (T-PEP) equipment;
(for more information, please visit:
http://www.nyc.gov/html/tlc/html/industry/taxicab_serv_enh.shtml)

- B) Display the new Taxicab Logo Markings
(for more information, please visit:
http://www.nyc.gov/html/tlc/html/safety_emissions/taxicab_logo_main.shtml)

A federal court decision rendered today denied plaintiffs' request to prevent the T-PEP program from being implemented. This victory has reinforced our goal of continuing to work closely with the New York City taxicab industry to see that these customer service improvements are delivered to passengers as promised. Full speed ahead!

Please call 311, or visit www.nyc.gov/taxi for more information.
