There will NOT be a Taxicab Technology Expo at NYC TLC's Woodside Safety & Emissions facility at the request of vendors.

All taxicabs must install T-PEP by August 31, 2008. If your regularly scheduled inspection at Woodside is in August, you must have a T-PEP system installed by the time you go for your inspection. If you do not have an inspection date in August, you must bring your cab to the TLC's Woodside facility, Lane 1, any Monday – Friday (except holidays) between 12:00pm – 4:00pm by August 31, 2008, for an inspection only that you installed a T-PEP system and it is working properly. You do not need an appointment for a T-PEP only inspection.

The new provider can charge you a different price and offer different terms than Taxi Tech Corp. gave you. You should talk to all the vendors to decide which one works best for you.

If you have questions about your Taxi Tech contract, please call the TLC at (212) 227-6324.

Please watch the TLC website (<http://www.nyc.gov/taxi>), or sign up for automatic e-mail updates (see upper left hand side of home page) for news and information about the T-PEP systems.
