TLC ANNOUNCES NEW DESIGNS FOR DRIVER'S LICENSES

The New York City Taxi and Limousine Commission (TLC) has announced that it has changed to a new format for all of its Driver Licenses.

If you have a current, valid TLC license you do not need to replace it and it can be used until its expiration date. When you renew your license, you will receive one in the new format.

The new format features:

- A smaller, easier to carry size similar to that of a DMV-issued driver's license;
- The same information as the old format: name, expiration date, license number, and license type;
- A new repeating "NYC" logo hologram across the front to enhance security;
- And color coding on the license to indicate its type:
 - Medallion Taxi – Yellow
 - For-Hire – Blue
 - Paratransit – Green
 - Commuter Van – Red

Images of the new licenses can be found on the accompanying sheets.

Licensees are reminded of the need to maintain a clean, transparent partition and credential holder in their vehicle. As per TLC rules 1-12 (a), 3-03 (3)(i) and 3-03 (4)(ii) the partition and credential holder must provide the passenger with a clear and unobstructed view of the drivers license, rate card and front windshield at all times.

If you have any questions please call the TLC at (212) 227-6324 or visit us at www.nyc.gov/taxi.
