

Future Plans & Possibilities

Presented by Sergey Royter
NYC Taxi & Limousine Commission

IEC - 9/17/2009

Future Possibilities

- ▶ Continuous GPS feed while cab is on duty
 - Lost Property
 - Data analysis
- ▶ Single Web Portal for trip sheet data information (not necessarily single vendor)
 - Trip searches
 - Text messaging

Future Possibilities

- ▶ Driver Information Monitors (DIMs)
 - Navigation (GPS) for drivers
 - Points of interest
(ex: public bathrooms, cab stands, etc.)
 - Increased text messaging (currently 200 char)
 - Touch screens (full color)

Future Possibilities

- ▶ Passenger Information Monitors (PIMs)
 - Interactive, location based content (interactive map with POIs)
 - Multi-language interface (tourists)
 - Information input (ex: email for receipt)
 - Instant compliments / complaints / surveys

Future Possibilities

▶ Credit Card Improvements

- Lower fees
- Accept split tender
- Increased floor limit approval (currently \$25)

Future Possibilities

► Miscellaneous

- Digital (email/RFID/Bluetooth) and/or enhanced printed receipts (stand alone printer – sell tickets)
- Wi-Fi Internet/Intranet access (user profiles) - mentioned at IATR
- Future – integration of meter and Driver Information Monitor (DIM)
