

Hello. My name is Marc D'Ottavio and I am the Republican and Conservative candidate for Brooklyn Borough President.

I am born and raised in Brooklyn and pride myself in my love for the borough. I believe that Brooklyn is the greatest place in the world to live. I believe it is time to take Brooklyn to the next level and believe I can create the leadership team to handle that.

I think that Brooklyn has to embrace the future while respecting its past. There is no reason why we can not bring big businesses into our borough and still help our smaller businesses flourish. We need to bring jobs into Brooklyn and build a bigger tourist trade.

There are a few issues that seem to make the news a lot. Whether it is The Atlantic Yards, Coney Island or the Amphitheater, the public is talking.

There are many other issues that need to be addressed and it is my belief that every issue in this borough is important. Whether it is helping repair side walks or helping landlords find tenants, every citizen in the borough needs to be heard.

I believe the best way the Borough President can help the people of Brooklyn is to work together with community groups and businesses to help build a better Brooklyn.

I hope that come November the people of the borough will pick me to take them into the future.
