

Hi, I'm Tony Perez Cassino, and I'm running for City Council in the Northwest Bronx. I grew up in Bedford Park and attended JFK High School, Fordham University, and NYU Law. I manage the pro bono program for my law firm and I previously served as Chair of Community Board 8. My wife Laura and I live with our beautiful children Julia and Andrew in North Riverdale.

I'm running because we need a new leader in the City Council to change the way government works and to ensure that we get the services we need. This election is about the future - the future of our community and City.

For too long the answer from elected officials has been to raise fees and taxes and cut our services. This while we continue to hear about corruption scandals

from the City Council to the State Senate.
We can do better.

We need a City Councilperson who will make government accountable and efficient, from the MTA to the Department of Education. We need a City Councilperson who will focus on improving our schools, rebuilding our shopping districts, improving public transportation and enhancing our parks.

As a community activist for more than a decade, I've worked with people to find creative solutions to the enduring issues facing our community.

We created the Coalition of Riverdale / Kingsbridge Schools to bring about more resources for our schools and local community organizations.

We worked with City Hall to cut alternate side parking from 4 days to 2, and

worked with the police to get abandoned cars off of our streets.

We worked to stop out-of-scale developments by rezoning our neighborhoods.

We worked with the police to put more officers on the streets.

And, we worked to create the Van Cortlandt Park Conservancy to bring more resources to our parks.

More than ever we need a Councilperson who will bring together people to find creative solutions to the tough problems, someone who will hear our concerns, sweat the details, and deliver the services we need. I will be that Councilperson.

I'm Tony Perez Cassino, and I'm running for City Council and I need your vote.
