

Hello. My name is Walter Nestler and I am running for City Council.

I have entered this race as an independent candidate. As a result of my strong environmental credentials and concern for such issues, I have accepted the endorsement of the Green Party. Therefore, I am running as the "Green" candidate for the New York City Council in our 18th District this coming Election Day, November 3rd, 2009.

Areas of interest include:
environmental issues, education, business and employment, transportation, parks and recreation, senior concerns, health and medical issues, housing, infrastructure improvements, and zoning and land use development.

My experience as a life long resident and business owner in our 18th City Council

District, together with my service as a member of Community Planning Board #9, has given me the experience and knowledge of working with City and State agencies and the know how to represent community organizations working to improve the quality of life for all people in our District.

This is a historic election as I will be the first ever Green Party candidate elected to our New York City Council. An election which, as never before, truly advocates a platform of environmental focus, grass roots initiatives and sustainable solutions to our numerous District wide concerns which affect the day to day lives of all residents.

This November, I invite you to consider a new, exciting and independent choice. I challenge you to vote outside the box.

This Election Day, vote Green, vote for me, Walter Nestler, for City Council.

And I thank you for your support.
