

Hi, I'm Jerry Iannece and I'm a Democrat running for City Council in the 19th Council District.

For well over 20 years I have been an active and outspoken resident, civic activist, and community leader in Northeast Queens.

My parents immigrated from Italy well over 50 years ago. They came to this country, like so many of yours, in search of a better way of life for themselves, and more importantly their children. They instilled in me the principles and ideals of the American Dream. But with that dream came certain responsibilities. You had to give more than you got and you had to get involved in your community.

With that as my foundation, I have spent the last 20 years doing virtually everything that one can do as a volunteer to

make our communities better, not just for my family, but for all our families here in Northeast Queens. Whether it was coaching our kids in Little League, lecturing at career days or forums, leading one of our civic associations or chairing one of our community boards, the facts simply don't lie. I've been part of the solution and dialogue on virtually every issue facing Northeast Queens for well over a decade.

That's why I've been endorsed by the Queens County Democratic Organization, many of our local elected officials and civic leadership, the United Federation of Teachers, DC 37, the RWDSU, the UFCW, the United Auto Workers, the Civil Services Employees Union and many other unions and organizations.

I want to finish many of the things that I started with so many of you and take my experiences and vision for our community down to City Hall. Let's keep our schools

strong, make sure we have enough cops for our local precincts, bring re-zoning relief to all our communities, stop over-development, maintain our parks and ensure that we get our fair share of allocated municipal resources.

It would be an honor and a privilege to serve as your City Council Member and I hope I can count on your vote and support on Election Day.

It's time to elect one of us.

Thank you and God bless you.
