

On Election Day, November 3rd, 2009 residents of this great City will have the important responsibility to vote for individuals who share their values, ideals, vision for change and a better direction for our government.

More importantly, we need someone in the City Council to represent our district who has the knowledge, business acumen and experience to lead our community during the toughest economic times we have seen since the great depression.

During these fiscally challenging times, we need to create jobs and lower taxes so people have the resources to live the American Dream of owning a home and providing a better life for their children and families. We need to find ways to eliminate wasteful spending while maintaining all of our essential services such as police, fire, education, senior services and health care.

It takes a strong leader to get things done in New York City and that's why I am running for the City
