

Hello. My name is Scherie Murray and I am your candidate for the 31st Council District. Rosedale, Laurelton, Springfield Gardens and Far Rockaway, I am a new a generation of leadership.

I was born in Jamaica, West Indies, and I came to America with my family when I was nine.

I attended the Law, Government and Community Service High School in Queens where I graduated with an outstanding community service award and was also captain of the gymnastics team. I hold two degrees from CUNY, in microcomputer business systems and broadcast journalism.

As a resident of Rosedale, I know the problems that are affecting the community. As your City Council Member, I will promote public policies that better the quality of life for you and your family.

Smart classrooms, student mentoring and competitive after school programs will enable the next generation to compete in a global economy. Adult and ESL education must be more comprehensive and accessible.

I will partner with faith-based institutions, City agencies, other City Council members, the Mayor's office, and experts to get the job done as your City Council Member.

One of my platforms, the Mortgage Transplant Package, will be an added option for homeowners affected by the housing crisis.

District Area Network 31, another of my platforms, will provide jobs, merge our youth and seniors, and will be a faster, more organized way to connect neighbors in need.

I am committed to the principles of a transparent and accountable government. That's why I will work to cut taxes, create jobs closer to home, and encourage the development of independent workers. I will also fight for a police precinct and a state of the art community center.

I am honored to be working with the community and I am inspired by President Obama's call for "A New Generation of Leadership."

I value your support and your vote.
Vote Murray, A New Generation of Leadership.
