

Hi, my name is Diana Reyna and I have represented the 34th Council District for the last eight years.

My childhood was shaped by a loving immigrant family and a community rich with tradition and character that taught me to persevere and fight for what I know is right. Our shared community has a passionate history, one built on the shoulders and resolve of working families that must be respected by a leadership that unconditionally serves its people. I will continue to stand up on your behalf, staying focused on our effort to continue improving schools, quality of life while maintaining our neighborhood's cultural identity.

For me, it has always been, and will continue to be, about the community, making sure that your needs are met and your voice is heard. My commitment to you is stronger than ever and I ask you to vote for me.

Together, with your help, we will
continue our journey as we can deliver four
more years of extraordinary results.
