

Hi. I'm Councilmember Mathieu Eugene.

Dear constituents and supporters, I began this journey by the grace of God and with your help. I thank you. We now stand at a place of historic accomplishments, leadership and responsibility. I am grateful to all of you who dedicated countless of hours in this journey and for being a part of my previous historic victories. Together we did, together we will.

I have dedicated myself to provide everyone with access to low cost or free quality health care and preventive services.

One of the constituents of the 40th District called to thank me and said that I saved his life because following one of my medical symposiums on colorectal cancer, he received free screening and free treatment. He did not have medical insurance and he couldn't pay.

As a City Councilmember I continue to advocate for the highest quality of health care by funding Kings County Hospital, Downstate Medical Center, community organizations, and by introducing and supporting legislation.

I was instrumental in instilling in our young people the quest for knowledge and education. As a City Councilmember, I have provided resources for the schools for computer labs, arts, sports and after school programs.

I provided funding to several organizations, funding for a new park at Rogers Avenue and Winthrop Street as a safe haven for our children, funding for the installation of beautiful antique lights on Church Avenue and also for the beautification project at Cortelyou Road.

I stand for the youth. I stand for senior citizens. I stand for affordable housing. And I stand for job opportunities.

Vote for Mathieu Eugene on September 15th as a Democrat.

May God bless you and bless your family.

Thank you.
