

Hi everyone. I am Councilman Kendall Stewart representing the 45th Council District in Brooklyn. I would like to thank you, the residents of my District, for giving me the opportunity to serve you. I want to thank you for your prayers, advice, and encouragement.

As we move forward, I urge you to examine my history of service with a record of delivery - from immigration to healthcare, senior citizens' empowerment, housing, education and public safety. The District is now poised for even more growth and development.

My fight for quality, affordable healthcare has allowed me to fund a diabetes and cancer center as well as a nursing school at Kings County Hospital to the tune of more than \$15 million.

I am proud of the fact that these past seven years I have provided my District with capable, informed and educated leadership while engaging the wider community for guidance and input. I look forward to doing more of the same in my new term. I will continue to work to strengthen existing programs and services, including overall development of education and opportunities for young people.

I truly believe, as many others do, that in a couple of years we will return to stable economic times. But until then, experience on the local level is very important in achieving our goals.

I have the experience and I am a proven record of accomplishments that residents and voters have come to expect, rely on and benefit from.

Again, this is Councilmember Kendall Stewart asking you for your vote in this upcoming election.

Thank you and God bless you.
