

I'm Jimmy McMillan, the founder of the Rent Is Too Damn High Movement. Many of you know who I am.

My issue is about rent. My issue is about rent. Can't buy food, breakfast, lunch or dinner because of rent. Can't take a vacation because of rent.

We have a problem that you created by voting for these guys who are rich. How are we going to solve this problem? When you go to the polls, you're going to see the name Jimmy McMillan. Hit it. Vote for it. You voted for change when you voted on November 4th of 2008. Let's see if you can continue that change.

People can't pay their rent. Send your child to daycare. They have to raise the fees because of rent. And someone said, well, McMillan, you're a one issue candidate. Is that all you talk about is

rent? Well, if you can't pay your rent you're not going to be here. So, rent is too doggone high. You all understand the movement. You know who I am.

The Rent Guidelines Board, Rent Control Board, Rent Stabilization Board, the Division of Housing Community Renewal, HPD, HUD, Fannie Mae and Freddie Mac.

What happened in New Jersey on July 23rd, they indicted 44 people for corruption. I need you to help me send them to jail.

The same thing is going on right here in New York. Discrimination in a wide area. I know who they are. They're not going to cut off the hand that feed them; the Rent Guidelines Board, Rent Control Board, every year they vote to raise the rent.

Starting with the attack on the World Trade Center in 2001, rent has went up every

year. 2001, rent hike. 2002, rent hike. 2003, rent hike. 2004, rent hike. 2005, rent hike. 2006, rent hike. Until 2009, there's a rent hike.

The President has done a remarkable thing. He has signed an \$800 billion bailout into law, a \$780 billion stimulus, and now we're 60 percent owners of General Motors. His plan will not work under the current administration. State Legislators nor City Council. You are going to have to vote them out of office if you want to see a change.

The bailout in the stimulus, every time he puts something on top to help you, the public, five percent taxes, gas hikes, hikes in transit, it keeps chipping it away.

So here's what we propose. We are going to waive, the moment I'm sworn in as Mayor of the City of New York, if you're DHL, Fed Ex, or if you have a delivery

company, no matter what it is, and you have tickets when I'm sworn in, read my lips, they will be waived. I don't want to come into this administration with no past bills. You need a break.

I am the stimulus for the people. If you have a crisis in any area, I am here to make sure the people benefit from what we are here to do; bring about new change and new solution.

For example, the people in the Flatbush Gardens section of Brooklyn, the landlord is harassing them. The landlord has raised their rent with violations. They have allowed landlords with violations to raise the rent. Criminal landlords who get your personal information like the Social Security. You have to have a credit check to have an apartment. We have a lot of problems here that I need you to help me clean up.

When you go to the poll and vote, make sure you read the name Jimmy McMillan. Hit it. Put those old people out of office that cannot think for the public. We are the stimulus for the people. Give us your support.

Thank you very much. And, I'm Jimmy McMillan running for Mayor of the City of New York and I hope you vote for change when you vote for me.

Thank you very much.
