WHAT'S GOING ON: On November 21, DOP opened their very first Resource Hub at our Manhattan Adult Operations Office at 346 Broadway. Clients can now put the time they spend waiting to see their PO to good use by looking up job opportunities and

other resources on the computers, speak to visiting reps from local community based organizations, and reading informational brochures, books and magazines provided by the DOP.

WHAT'S COMING NEXT: Through YMI, the Department of Probation is rolling out Neighborhood Opportunity Networks (NeONs) so that people on probation can access support and services in their own communities. The first NeON opened in Brownsville in 2011, and the next will open in Harlem this year.
