

Agency	Medical, Mental Health, and Substance Abuse Services
Boys Town	<p><b>Staff:</b> Boys Town is hiring a LMSW to provide mental health assessments and therapy. All Boys Town staff are trained in First Aid / CPR for basic First Aid that is required in the home.</p> <p><b>Contract Providers:</b> A consultant medical doctor will provide initial health screens, comprehensive physical exams, and any follow up from referrals. A consultant Psychologist will provide additional Mental Health Services as needed and is on site every week and available 24/7 for phone consults and same day consults. A consultant Psychiatrist is on site every week and available 27/7 for phone consults and same day consults, and will provide psychiatric services to youth.</p> <p><b>Community Providers:</b> Boys Town currently utilizes community based providers/agencies for medical, mental health and substance abuse services. For Brooklyn based services, Boys Town will utilize Community Counseling &amp; Mediation, New Directions for substance abuse services. For Queens based services, Boys Town will work with Queens based substance abuse providers, and medical providers. Once they have been identified, information will be shared with OCFS/ACS. Dental services are provided by Designer Braces.</p>
Children's Village	<p><b>Staff:</b> Comprehensive medical services are provided at the Keith Haring Medical Clinic on the Children's Village campus, which provides 24-hour/ 7 day-a-week medical services. Registered nursing staff is present with 24 hour nursing coverage at the Dobbs Ferry Campus. Every program has a SW/CW (BSW/MSW), SW Supervisor (MSW/LCSW/LMSW) and Treatment Coordinator (LCSW or Psychologist) attached to them. Psychotropic medication is overseen by a NYS Licensed Child Psychiatrist as it is for our other child welfare programs with the same standards.</p> <p><b>Consultant Providers:</b> Dental services are provided by American Mobile Dental Service, which regularly evaluates residents at the Dobbs Ferry campus for preventive and acute dental care. An optometrist provides on-site vision screening and corrective lens prescriptions for residents. In addition, sports medicine and physical therapy clinics are provided on-site for children with sports injuries or chronic musculoskeletal complaints. For substance abuse services, CV utilizes the Lexington Center for Recovery, Inc. (LCR), the largest provider of alcoholism and substance abuse treatment in the Hudson Valley. LCR has a satellite office on the CV campus that is licensed by the Office of Alcoholism and Substance Abuse Services (OASAS) to provide outpatient substance abuse treatment.</p> <p><b>Community Providers:</b> A memorandum of understanding with The Children's Hospital at Montefiore allows children access to the best sub-specialty care in the nation while maintaining the integration of care provided by a primary care medical home.</p>

Agency	Medical, Mental Health, and Substance Abuse Services
Episcopal Social Services	<p><b>Staff:</b> Each NSP facility will have a mental health team who will screen all youth to determine their need for mental health services. If mental health services are needed, then a comprehensive assessment will be completed resulting in a treatment plan. Medical and dental services will be provided by the ESS Bronx-based clinic. Additionally, a nurse will provide health services at each NSP site.</p> <p><b>Consultant Providers:</b> A psychiatrist who is on contract with ESS will evaluate youth in need of medication and will provide ongoing medication management. For specialized medical needs, ESS will utilize subspecialists located in area hospitals in Manhattan and the Bronx. If the youth is already in the care of a medical subspecialist, ESS will promote continuity of care by making efforts to continue with that specialist.</p> <p><b>Community Providers:</b> If ongoing mental health services are needed for both the youth and their family or if the youth is in need of specialized mental health services, ESS will connect youth with community based providers.</p>
Good Shepherd Services	<p><b>Staff:</b> For medical services there will be a full time nurse (RN) at each NSP site. Each nurse will also be on call for after-hours emergencies. For mental health services the clinical team at each site will consist of a clinical social worker, a social work supervisor, and a behavioral specialist.</p> <p><b>Consultant Providers:</b> Good Shepherd Services will utilize a consultant psychiatrist and psychologist.</p> <p><b>Community Providers:</b> For medical needs Good Shepherd Services will work primarily with Lutheran Medical Center and Brownsville Multi Services Family Health Center. For Optometry, Good Shepherd will work with Cohen's Optical in Brooklyn. For youth with HIV, GSS will use the special expertise of Callen Lourde community health center HOTT Program (Health Outreach To Teens) or The Door. For substance abuse services, Good Shepherd Services has formal linkages with: Realization Center, Dynamite Center, Outreach Center, Never Alone and Cares/St. Luke's Hospital. Dental services are provided by New York University.</p>

Agency	Medical, Mental Health, and Substance Abuse Services
Jewish Child Care Association	<p><b>Staff:</b> JCCA provides medical, dental, substance abuse and mental health services onsite. Medical, substance abuse, and mental health services will be delivered by a clinical team comprised of licensed social workers, nurses, pediatricians, psychiatrists, psychologists, and medical specialists. There will be some staff dedicated specifically to the NSP program while others are shared among the campus programs. JCCA will provide on-campus and community-based substance abuse services to NSP Program youth through its onsite substance abuse treatment services.</p> <p><b>Community Providers:</b> If necessary, JCCA obtains access to day treatment, support groups for users and family members, relapse prevention, specialized programs for particular populations such as teens, gays/lesbians and mentally ill chemical abusers (MICA), and an adolescent inpatient detoxification facility for youth or family members through Liberty Healthcare.
