Horizon Juvenile Center	30	0	0	0

* During this quarter ACS assumed responsibility for management of six of the ten residential halls at Horizon. Incident reporting functions transitioned from DOC to ACS for these six halls at the time that ACS assumed responsibility.

¹ Physical restraints refer to physical hold techniques included in the Safe Crisis Management System and other non-offensive physical safety interventions. Physical restraints are reported at the incident level; one incident may involve multiple youth restrained.

² Injury is defined as any event requiring medical treatment. Injuries range in severity from simple abrasions to broken bones and fractures.

³ Use of Force- A is a classification used to describe Use of Force Incidents that require medical treatment beyond the prescription of over-the-counter analgesics or the administration of minor first aid

⁴ Use of Force B is a classification used to describe Use of Force Incidents that: (1) Do not require hospitalization or medical treatment beyond the prescription of over-the-counter analgesics or the administration of minor first aid (e.g., Use of Force Incidents that result in a superficial bruise, scrape, scratch, or minor swelling); or 2. Involve the forcible use of mechanical restraints in a confrontational situation that results in minor injury

⁵ Mechanical restraints refer to restraints involving the use of handcuffs, shackles, and flex-cuffs.

⁶ 'Injury A' includes injuries requiring clinical treatment beyond what could be provided by a layperson with over-the-counter products.

⁷ 'Injury B' includes injuries treatable by a layperson with over-the-counter products such as ibuprofen, antibiotic ointment, etc. Categorization is
