Notes:

1) Rate definitions: rates are calculated by dividing the program counts by the total population of children citywide and in specific boroughs/community districts, multiplied by 1,000. The population of children under 18 years old is used for children in indicated investigations, prevention and foster care. The population of youth 12-18 is used for detention. The program counts are defined as follows: children in indicated investigations are unique children in investigations with a preponderance of evidence of abuse and/or neglect; children receiving prevention are unique children in child welfare prevention cases during the year; foster care placements are unique children placed in foster care during the year excluding those placed in Close to Home; and detention admissions are unique youth admitted to detention during the year.

2) Allegations are counted once per child per individual allegation. A child may have one or more individual allegations in an allegation category. Individual investigations often include multiple allegations. Allegations are grouped as follows: Physical Abuse - burn, fatality, fracture, choking, twisting, shaking, excessive corporal punishment, internal injuries, lacerations, bruises, welts, poisoning, noxious substances; Educational Neglect - educational neglect; Lack of Medical Care - lack of medical care; Other Neglect - inadequate guardianship, inadequate food, clothing, shelter, lack of supervision, malnutrition, failure to thrive, swelling, dislocations, sprains; Psychological Abuse - isolation, emotional neglect; Sexual Abuse/Trafficking - sexual abuse, sex trafficking; Substance Abuse - parental drug use, child drug use; and Other - abandonment, inappropriate custodial conduct, labor trafficking.
