\*The number of children in cells with one - five youth are not shown to protect anonymity.

\*\*January - March 2025 physical restraint statistics were revised at the time of publication of the April - June 2025 report to correct for a coding error.

<sup>1</sup> Physical restraints refer to physical hold techniques included in the Safe Crisis Management System and other non-offensive physical safety interventions.

<sup>2</sup> The detention total may include a small number of incidents that took place in Court Services/Transportation

<sup>3</sup> Injury is defined as any event requiring medical treatment. Injuries range in severity from simple abrasions to broken bones and fractures. It is the sum of Injury A and Injury B.

<sup>4</sup> 'Injury A' includes injuries requiring clinical treatment beyond what could be provided by a layperson with over-the-counter products. Categorization is made by medical staff.

<sup>5</sup> 'Injury B' includes injuries treatable by a layperson with over-the-counter products such as ibuprofen, antibiotic ointment, etc. Categorization is made by medical staff.

Data source: Incident Database and JDAS FITS

\*The number of youth in cells with one - five are not shown to protect anonymity.
