The contracting opportunities for construction/construction services and construction-related services that appear in the individual agency listings below reflect that commitment to excellence.”*

**HHS ACCELERATOR**

To respond to human services Requests for Proposals (RFPs), in accordance with Section 3-16 of the Procurement Policy Board Rules of the City of New York (“PPB Rules”), vendors must first complete and submit an electronic prequalification application using the City’s Health and Human Services (HHS) Accelerator System. The HHS Accelerator System is a web-based system maintained by the City of New York for use by its human services Agencies to manage procurement. The process removes redundancy by capturing information about boards, filings, policies, and general service experience centrally. As a result, specific proposals for funding are more focused on program design, scope, and budget.

Important information about the new method

- Prequalification applications are required every three years.
- Documents related to annual corporate filings must be submitted on an annual basis to remain eligible to compete.
- Prequalification applications will be reviewed to validate compliance with corporate filings, organizational capacity, and relevant service experience.
- Approved organizations will be eligible to compete and would submit electronic proposals through the system.

The Client and Community Service Catalog, which lists all Prequalification service categories and the NYC Procurement Roadmap, which lists all RFPs to be managed by HHS Accelerator may be viewed at <http://www.nyc.gov/html/hhsaccelerator/html/roadmap/roadmap.shtml>. All current and prospective vendors should frequently review information listed on roadmap to take full advantage of upcoming opportunities for funding.

**Participating NYC Agencies**

HHS Accelerator, led by the Office of the Mayor, is governed by an Executive Steering Committee of Agency Heads who represent the following NYC Agencies:

Administration for Children’s Services (ACS)  
 Department for the Aging (DFTA)  
 Department of Consumer Affairs (DCA)

#### Statement of Basis and Purpose of Rule

Local Law 196 of 2017 went into effect on October 16, 2017. It created new requirements for construction site safety training courses and course completion cards, beginning March 1, 2018.

Local Law 119 of 2019 went into effect on June 8, 2019 and changed some of the compliance dates in Local Law 196. This rule has been amended to reflect those changes.

This rule

- amends the existing course provider rule (section 105-03) to add requirements for site safety training course providers and course completion cards; and
- adds a new rule section 3321-01 regarding the type of and time frames for construction site safety training.

The amendments to the Department's penalty schedule (§ 102-01(k)), which appeared in the proposed rule, are no longer part of this rule. They were promulgated as part of a larger set of amendments to §102-01 that became effective on November 10, 2018.

**Statement of Basis and Purpose of Proposed Rule**

Under section 2101 of the New York City Charter, the Business Integrity Commission (BIC) is authorized to regulate the trade waste industry and, among other things, ensure that businesses are able to operate in an honest and competitive environment, free from the influences of organized crime and criminality. Among other things, Local Law 145 of 2013 gave the Commission the authority to promulgate rules necessary to enforce the provisions of § 24-163.11 of the Administrative Code.

Local Law 145 of 2013, which added § 24-163.11 to the Administrative Code, requires that every heavy duty trade waste hauling vehicle that is owned or operated by an entity required to be licensed or registered by the Commission and operating in New York City be equipped with either (1) an EPA certified 2007 (or later) engine or (2) utilize "Best Available Retrofit Technology," as defined by the New York City Department of Environmental Protection before January 1, 2020. Under § 24-163.11(d)(5) of the Administrative Code, the Commission may set by rule the criteria for establishing procedures for owners and operators of heavy duty trade waste hauling vehicles to demonstrate compliance with the engine requirement.

The proposed rules require an owner or operator of a heavy trade waste hauling vehicle that has a pre-2007 engine and utilizes "best available retrofit technology" as defined in § 24-163.11(b) of the Administrative Code to obtain from the New York City Department of Environmental Protection a decal labeling the vehicle as compliant with Local Law 145 of 2013, and to place the decal on the driver's or passenger's door of the vehicle cab. Additionally, the Commission proposes changes to the penalty section of its rules.

The other proposed rule change clarifies that BIC will not issue license plates to vehicles that do not comply with the requirements set forth in § 24-163.11 of the Administrative Code.

BIC's authority for these rules is found in sections 1043(a) and 2101(b) of the New York City Charter and section 24-163.11(d)(5) of the New York City Administrative Code.

[Such] Beginning on January 1, 2020, the Commission will not issue license plates for any vehicle that does not comply with the requirements set forth in § 24-163.11(b) of the Administrative Code. License plates issued by the Commission must at all times be affixed as prescribed by the Commission to a visible and conspicuous part of each such vehicle. A licensee must not permit a vehicle to be used in the course of collecting, removing, or disposing of waste that has not been identified and covered by the license and for which a fee has not been paid. A license plate issued by the Commission for such a covered and identified vehicle must not be transferred to any other vehicle. Upon the sale or dissolution of the business of a licensee, or upon the suspension, revocation, or expiration of a Commission-issued license, such plates must be immediately surrendered to the Commission. All license plates issued by the Commission are the property of the Commission, and the Commission reserves the right to reclaim such plates at any time.

§ 3. Subdivision (a) of Section 7-03 of Subchapter G of Chapter 1 of Title 17 of the Rules of the City of New York is amended to read as follows:

**§ 7-03. License Plates**

(a) Upon issuance of a registration, the Commission shall issue to a registrant who removes trade waste generated in the course of operation of his or her business and to a registrant exempt from the licensing requirements of this chapter two (2) license plates for each vehicle that will transport trade waste pursuant to such registration and for which a fee has been paid, pursuant to 17 RCNY § 2-07. Beginning on January 1, 2020, the Commission will not issue license plates for any vehicle that does not comply with the requirements set forth in § 24-163.11(b) of the Administrative Code. A registrant shall not permit a vehicle to be used in the course of collecting, removing, or disposing of waste that has not been identified and covered by the license and for which a fee has not been paid. A license plate issued by the Commission for such a covered and identified vehicle must not be transferred to any other vehicle. Upon the sale or dissolution of the business of a registrant, or upon the suspension, revocation, or expiration of a Commission-issued license, such plates must be immediately surrendered to the Commission. All license plates issued by the Commission are the property of the Commission, and the Commission reserves the right to reclaim such plates at any time. Notwithstanding any other provision of this chapter, the penalty for violation for this section shall not exceed five thousand dollars (\$5,000) for each such violation.
