Subject: Proposed Rule on Restrictive Housing

Dear Members of the Board of Corrections:

Thank you for the opportunity to comment on the proposed rule on restrictive housing, I find the proposed rule sorely lacking for the following reasons:

- 1) The layout is impossible to understand
- 2) Programming plans are not available
- 3) There is an absence of mental health focus which is essential because so many individuals in RMAS are likely to have mental health issues
- 4) We have been given no information about anything that will happen in Levels 2 or 3

At least until these issues are resolved I would agree that RMAS simply represents solitary confinement by another name.

Sincerely,

Elizabeth Mayers
Member, Jails Action Committee
