---

Solitary confinement is torture and must be abolished completely in NYC. These rules don't do that and instead perpetuate extreme forms of isolation, even indefinitely. All people should have access to at least 14 hours out of cell per day in spaces conducive for people to engage in programs and activities with other people. People should have access to lawyers to help ensure these rules are properly implemented and people are protected.

GET IT RIGHT OR YOU WILL BE RESPONSIBLE FOR THOUSANDS OF DEATHS.
