

Please continue to allow nonprofit book programs. Many incarcerated people cannot afford to purchase books from Amazon. There are more than enough gently used books that they can access for free through nonprofit book programs.

There are many reasons why having access to reading materials is beneficial to everyone. It keeps people literate, it helps them learn new perspectives, it helps people grow and heal. It's for the good of society. Let's make positive impacts on society, not negative ones. Nonprofit book programs are a societal positive.
