#### II. Data Dictionary

Injury Table	Definition
	Number of injury reports documented by CHS within the month, excluding injuries that are still
Table 1	pending as of the last day of the reporting period. All injury reports represent an in-person clinical
	encounter.
	Number of injury reports by determination.
Table 2	Confirmed injury is defined as an injury by history only, injury with physical evidence, or injury that resulted in urgent care or hospital transfer.
	Serious injury is defined as any one of the following: laceration requiring sutures; staples or glue,
	fracture, clinical nasal fracture, initial dislocation reduced in clinic or hospital, tendon tear, amputation,
	structural injury to organ, post-concussive syndrome or head injury requiring imaging, blistering burn
	involving face or >9% of total body surface.
Table 3	Number of confirmed injury reports where patient was sent to urgent care.
Table 4	Number of confirmed injury reports where patient was sent to hospital.
Table 5	Age of patient at time of confirmed injury report.
Table 6	Number of confirmed injury reports where the patient accepted or refused care.
	Number of confirmed serious injury reports by type. An injury report may contain more than one
Table 8	serious injury type; therefore the total number of injury types may not equal the number of serious
	injury reports.
Table 9	Number of confirmed non-serious injury reports with a documented blow to the head.
Table 10	Number of confirmed injury reports by bodily location.
Table 13	Number of confirmed injury reports by cause of injury as reported by patient to CHS.

Self-Harm Table	Definition
Table 1	Number of incidents of self-harm by type.
Table 2	Number of incidents of self-harm by type and age at time of incident.
Table 3	Number of incidents of self-harm by type and facility.
Table 4	Number of incidents of self-harm by type and housing type.

#### Department of Correction Table 7

DOC is reporting on 96 Serious Injuries which took place during the month of January, 2020.

Please note:

If an individual was injured outside of the month of January, but visited the clinic in January, that serious injury is not accounted for in DOC's Table 7.

DOC is not reporting on injuries which CHS determined to be serious during the month of December, but which occurred outside of December.

#### DOC & CHS Joint Report on Injuries Occurring in Custody **Reporting Period: January 2020** Date of Report: February 28, 2020
