## II. Data Dictionary

Injury Table	Definition
Table 1	Number of injury reports documented by CHS within the month, excluding injuries that are still pending as of the last day of the reporting period. All injury reports represent an in-person clinical encounter.
Table 2	<p>Number of injury reports by determination.</p> <p>Confirmed injury is defined as an injury by history only, injury with physical evidence, or injury that resulted in urgent care or hospital transfer.</p> <p>Serious injury is defined as any one of the following: laceration requiring sutures; staples or glue, fracture, clinical nasal fracture, initial dislocation reduced in clinic or hospital, tendon tear, amputation, structural injury to organ, post-concussive syndrome or head injury requiring imaging, blistering burn involving face or &gt;9% of total body surface.</p>
Table 3	Number of confirmed injury reports where patient was sent to urgent care.
Table 4	Number of confirmed injury reports where patient was sent to hospital.
Table 5	Age of patient at time of confirmed injury report.
Table 6	Number of confirmed injury reports where the patient accepted or refused care.
Table 8	Number of confirmed serious injury reports by type. An injury report may contain more than one serious injury type; therefore the total number of injury types may not equal the number of serious injury reports.
Table 9	Number of confirmed non-serious injury reports with a documented blow to the head.
Table 10	Number of confirmed injury reports by bodily location.
Table 13	Number of confirmed injury reports by cause of injury as reported by patient to CHS.

Self-Harm Table	Definition
Table 1	Number of incidents of self-harm by type.
Table 2	Number of incidents of self-harm by type and age at time of incident.
Table 3	Number of incidents of self-harm by type and facility.
Table 4	Number of incidents of self-harm by type and housing type.

**DOC Report: Serious Injuries from April 2021**  
**Phase 2**

Part of the DOC & CHS Joint Report on Injuries Occurring in Custody  
Reporting Period: April 2021  
Date of Report: May 28, 2021

**CHS is reporting on 153 injuries which were determined to be serious during the month of April 2021. Of those injuries, DOC is reporting on 129 injuries which took place during the month of April 2021. The 24 remaining injuries took place in months prior to April 2021.**

## DOC Report: Serious Injuries from April 2021

### Phase 2

**Table 7 – DOC**

*Phase 1 (I) Mean, median, minimum, and maximum time between the time of Department Supervisor notification and the time of initial medical evaluation for serious injuries, overall and disaggregated by treating facility;*

Overall	Time From DOC Supervisor Notification of Serious Injury to Initial Medical Evaluation	Time Elapsed	n= 129
