The attached four letters, written by four currently incarcerated people, are being submitted as written testimony after the last Board of Corrections meeting. I ask and urge the board members to read these letters as if they are written by their own family member or loved one. It's unacceptable for these conditions to persist, without the Department of Correction and CHS being held accountable for truth and action, sooner rather than later. People's lives are in their hands every day.

If you need these letters in a different format or are unable to open the attachments, please email me back at this email address [\[REDACTED\]](#).

Thank you.
