The rate of slashing and stabbing incidents through February 28<sup>th</sup> is up 46% from the rate for 2014. There have been twelve incidents in the first sixteen days of March.

Two incidents from 2014 and one from 2015 were re-classified. Also, two incidents were reported twice as part of use of force incidents and then separately as slashings. This has been corrected.

2015	368	330											698	3.709	9,887	59

UOF rate increased 17% from last year's rate for the year and 11% from the first two months of last year.

Two inmate disturbances in 2013 and twelve in 2014 were counted as use of force. The uses of force were reported separately, so the incident counts have been corrected. From the time DOC implemented their current Incident Reporting System in 2007 through 2012, there were no incidents classified Inmate Disturbance.
