DESIGNING FOR WELL-BEING

SAFETY

Throughout the Facility, people feel physically and psychologically safe

TRUSTWORTHINESS + TRANSPARENCY

Decisions are made with transparency and with the goal of building and maintaining trust

PEER SUPPORT

Individuals with shared experiences are integrated into the organization and viewed as integral to service delivery

COLLABORATION

Participants work together to make determinations on programs, schedule and activities that affect people in the space

EMPOWERMENT

People's strengths are recognized, built on, and validated – this includes a belief in resilience and the ability to heal from trauma

RESPONSIVENESS

Biases and stereotypes (e.g., based on race, ethnicity, sexual orientation, age, geography) and historical trauma are recognized and addressed

WHAT WE HEARD - INTERIOR PUBLIC SPACE

INTERIOR PUBLIC SPACE - IMPLEMENTING KEY TAKEAWAYS

- **Multi-sensory experience** with access to natural light and warm materials is an essential feature for the proposed Facility. **Universal design** has been implemented throughout the Facility.
- **Welcoming entrances and clear visitor flow** have been provided.
- Adequate space for visitors has been provided both for **queueing and seating in waiting areas**. This was to ensure that visitors would not need to wait outside.
- **Lockers and restrooms with accessible design** have been provided.
- **Flexible community space** is provided in the building. Additionally, the lobby includes space for social services.

WHAT WE HEARD – INTERIOR SPACES

INTERIOR SPACES – IMPLEMENTING KEY TAKEAWAYS

- **Human-centric design** is focused on dignity and respect for people in custody. All housing units will have increased access to **medical/mental health treatment** areas in the cluster.
- **Direct access to outdoor space** is provided in every living unit. **A horticulture program** is provided in the Facility.
- All living areas have clear sightlines providing **a safe environment for people in custody**. Additionally, there are no vertical bars at the windows.
- All housing cells have windows and **access to direct daylight**. All living spaces have access to daylight.
- Program spaces are provided with all living spaces. Additionally, the Facility hosts **a wide variety of programs** including horticulture, culinary arts, library, chapel, gymnasium, medical facilities, etc.

ARCHITECTURE

WHAT WE HEARD – ARCHITECTURE

ARCHITECTURE – IMPLEMENTING KEY TAKEAWAYS

- **Designing for the human scale** is a favored universal design strategy. Designing appropriate eye-level details and warm materiality has been incorporated into most elements of the Facility.
- Recreation yards at the center of the building were appreciated to **respect the privacy of neighboring residents**. To further increase privacy, recreation yards on the east have also been configured towards the center of the building with tall screening to minimize cross-viewing.
- Through the **Percent for Art program**, the Facility will incorporate art. City agencies will also seek community engagement through the process.
- **LEED Gold Certification** is seen as a positive credential from the community. Many sustainability topics are addressed such as bird mitigation, overshadowing, photovoltaics, and light pollution.
- Design is based **on principles of dignity, respect**, and rehabilitation. The Facility will include programming for education, counseling, and horticulture.

Public Realm

WHAT WE HEARD – DESIGNING FOR A NEW PUBLIC REALM

PUBLIC REALM – IMPLEMENTING KEY TAKEAWAYS

- **Improving the pedestrian environment**, particularly at the intersection of Atlantic Avenue and Boerum Place. Wider sidewalks have been provided to the streetscape. **Landscape security barriers** are softer and more integrated into the planters while reducing the visual weight of these elements.
- **Increased planting zones** have been provided throughout the streetscape.
- **Outdoor spaces also serve as therapeutic landscapes** that can help heal visitors, staff, and the people in custody. **Landscape design** should feel safe, native, and well-maintained along the public edges in downtown Brooklyn.
- A variety of seating supports **neurodiverse** (people experience and interact with the world in different ways) **and multi-generational social interactions.**

IMPROVE CONNECTIONS

By understanding how pedestrians, cyclists, and commuters engage with the site, we can optimize key areas to suit the needs for the public realm vision.

Improve Public Realm Connections

The streetscape and public realm design utilizes future-forward approaches, such as porous paving and layouts, corresponding with a greater vision of creating a welcoming urban experience for all.

Enhance Civic Experience

An inviting streetscape will enhance the public realm around the site and act as a cornerstone connecting users to Downtown Brooklyn and its surrounding communities!

Create a Community Cornerstone
