Deborah Marton, President/ Lay Member
The City of New York
The Public Design Commission
New York, NY

Commissioner Donoghue & President Marton:

We are writing to advise you of the Bronx Community Board #1 support for the We Stay/ Nos Quedamos and Pvillion proposal regarding the construction of resilience Hubs located at We Stay/ Nos Quedamos and La Finca Del Sur Community Garden in our district.

We believe this project to support community resiliency around emergency preparedness, energy justice, food security, broadband access, economic justice through green jobs workforce training, and other programming needs emerging at the community garden sights.

Investment from your agency through this project will provide the sustained support necessary for the revitalization and resilience of our district while continuing development and prosperity. This reflects our shared commitment to ensuring that The Bronx's growth extends to the areas where it is most needed. With those remarks, we fully support this application.

If you have any questions of concerns, please feel free to contact our office directly at 718-585-7117.

Sincerely,

Anthony R. Jordan
District Manager
