D. Hunt opened the meeting with the Pledge of Allegiance. Representatives from The Joint Commission and the New York State Department of Health provided an overview of the accreditation process and how they follow-up on complaints and issues with quality of care. A round table discussion followed where all attendees shared their concerns regarding issues of overcrowding in the Emergency Room, extended wait times, hallway beds, infection control, and overall poor quality of care especially at the Weiler Campus. Representatives from both agencies shared that hallway beds are allowed in extenuating circumstances and would follow-up on the concerns of the community. They also stressed the importance of patients/families documenting their complaints.
