

Draft

FY2025 CD Priorities Form

District Overview and Most Pressing Issues

Community District Overview and Narrative

Overview of Community Board 13

Community Board 13 is composed of Coney Island, Brighton Beach, Sea Gate and Gravesend, where we are surrounded by water. We are a growing community with residential, commercial and amusement developments. We have a huge NORC population that has needs to be addressed, and a large immigrant community that also has special needs. The Russian immigrants are moving into the NYCHA projects and high-rise developments in Coney Island, changing the demographics and needs of the area. There has been an increase in Pakistani and Mexican immigrants moving into Brighton Beach.

Dwindling Effects of Superstorm Sandy

During our season, March to October, the residents are forced to cope with increased traffic congestion and the severely dwindling number of parking spaces. Since Superstorm Sandy there have been many challenges rebuilding the area's infrastructure. The streets are still torn up due to the rebuilding of the infrastructure and when they are being repaired, traffic delays become a problem. In 2012, the community was not prepared for Superstorm Sandy. Eleven years later, we are still not prepared for another Superstorm Sandy. We realize that the need to protect our shoreline must be our first priority. We need both short term and long-term goals to fix the shoreline.

Infrastructure Improvements

Since the last Community District Needs request, the EDC, DDC and Parks Dept have made some improvements to the infrastructure. Coney Island Phase 2A continues to work on West 16th Street between Hart Place and Surf Avenue and expects to finish in 2025. Triumph Construction is restoring the streets with the installation of porous pavements. This is the first-time porous pavement streets are being used in the area. Using porous pavements will mitigate the storm water overflow to decrease the flooding in many areas of our community. We request that in the future, when the streets are torn up for construction projects, the streets will be replaced by porous pavements. We are still waiting for EDC to begin to rebuild the bulkhead on Coney Island Creek from Cropsey Avenue to West 22nd Street. The Parks Dept has continued to protect the shoreline by planting sea grass along Coney Island beach and Coney Island Creek Park. We hope they will continue this for the next few years to help with the entire shoreline. The long-term solution is that we need the Army Corps of Engineers, the Federal government and ORR to fund the projects necessary to protect us if another disaster occurs with the installation of sea wall/flood gates. We found out that there is \$52 billion dollars allocated to the NYC area from the federal government to study and protect the shoreline. We need to fight for funding to come into the area.

Senior Population Assistance

According to City Planning, our Community District Profile indicates that we have the largest senior population in NYC with 23.9% of the Community Board #13 being seniors. The issues caused by the ever-growing senior population must be addressed including more senior housing, additional senior centers and the need for additional health care facilities, specifically geared to the senior population. The NORC population has more time on their hands and work experiences, we need to tap into this resource and expand on any intergenerational programs and mentorship with the seniors.

Needs in our Seven-Policy Area

Our most important needs in our seven policy area are: (1) Health: C1 Trauma Center needed in South Brooklyn Health; (2) Youth: Recreational/Educational Center needed for the youth and seniors; (3) Public Safety: more uniformed officers needed in the area; (4) Environmental: protecting the shoreline from the next disaster; (5) Housing/Economic Development: Overdeveloping the area with too many apartments, and need for more jobs; (6) Transportation: we need a traffic survey for the area during the summer time and improved mass transit; and (7) Parks: the permanent repair of the boardwalk. We will discuss this more in detail in each section.

ESOL Services and Immigration Rights

With the growing immigrant population in Community Board #13, we need to address ESOL services, immigration rights, etc. Community Board #13 has been working with city and local agencies and the Brooklyn Public library to bring attention to the issues in the immigrant communities. According to the NYC Planning Community District Profiles, we are in the top three in Limited English Proficiency. To combat this, we need more ESOL and conversation classes so that our residents can become more proficient in the English language.

Issues with New Area Developments

Currently, we have several new developments being built in the area. Six development sites, each bringing in between 200-500 units per development, will surely overtax the infrastructure with more cars, causing increased congestion and parking problems. More units mean more children and seniors coming into the area. The existing schools and senior centers cannot handle the new population. These needs must be addressed before they move in. Upgrading the infrastructure includes the sewer lines that are needed to be able to handle the new developments. Six developments (West 33rd Street apartment, and Rybak/Seabreeze Apartments, Ocean Dreams and Surf Vets Apartments, Raven Hall Apartments, L&M Project) have opened in 2021/2022. There are four more large apartment developments that will be opening in the next year.

Flood Insurance Rates Increase

We are also concerned about the increase in the flood insurance rates. We know it will increase dramatically and will affect the small homeowners, renters and businesses in the area. We are disappointed with GOSR (Governor's Office of Storm Recovery) who has implemented the back flow prevention project for homeowners to have installed said preventors to prevent water from coming into the homes through the sewer lines. The program began during the pandemic and there wasn't a great response because people didn't want people in their homes. There were only two homeowners that were

income qualified for the project in our district. The remaining homeowners are still without a back flow preventor and are prone to flood in the next big storm. The FEMA released preliminary flood insurance rate maps for the area.

In addition, the flood insurance rate increase will affect the high-rise developments. Building management will have to pass the increased costs on to the renters through their monthly rents and maintenance fees. The NORC in these high-rise developments are on a fixed income and will find it hard to pay the increase. With these increasing rates, people will be forced out of their homes. We would call this insurance gentrification, where the neighborhood would change because of the increase in flood insurance rates.

Detriments with Traffic and the Denial of the Coney Island NYC Ferry Line

The traffic problem in the area has gotten worse with the new developments. The NYC Ferry will not come to Coney Island after extensive study on dredging Coney Island Creek, resulting in more frequently than anticipated annual dredging. To maintain the dredging, it would have cost over \$45 million dollars to clear the channel on a bi-annual basis. The other suggestion was to put it on the beach/oceanside but to do this, it would cost \$90-\$200 million dollars to build a breakwater to protect the dock. Both options had a high price tag, but no one is willing at this time to flip the bill. Therefore, EDC will not bring the ferry system to Coney Island.

Subway Stations Becoming ADA Compliant

We need to concentrate on making our subway stations ADA compliant with elevators such as the F Train - Neptune Avenue, Q Train - Ocean Parkway, etc. These stations are used by the NORC population in our community.

Future Developments

We need to look at all the future developments and how it impacts on the traffic and parking in the area. After the infrastructure projects are completed, we need to see how all these developments affect the community. With COVID-19 not on high alert, we learned that there will be new problems that will need to be addressed. Retrofitting of the schools, unemployment, closing businesses, vaccine/booster distributions, etc. are a few issues that everyone must face in the coming years. The City budget must address those needs for the neighborhood to flourish.

Proposed Casino in Coney Island

Since the last report, Coney Island has been a targeted site for the proposed casino in the amusement area. The community came together for a community participation meeting in March and April 2023. At both meetings, the community residents were against the casino project. During the summer, the lobbyists reached out to local basketball clinics and sponsored many tournaments for the youth. At the time of this report, we do not know if Coney Island will be chosen as one of the locations and licensee in the metropolitan area.

Issuing of Licenses for Cannabis Dispensaries

We are concerned with the issues of licensed cannabis dispensaries located within our community.

There are constant changes in rules and regulations coming from the NYS Office of Cannabis Management. We need guidance to make sure our community does not become an unwanted home for cannabis dispensaries.

Illegal Vendor Situations in Coney Island

Illegal vendor situations in both Coney Island (during the summer season) and Brighton Beach (year-round), have gotten out of hand. We need a coordinated taskforce that will work on this issue. The new Neighborhood Support Team has been slow in taking steps to rid the community of these vendors. Now, due to DCWP no longer being the lead and DSNY has been given the task of summonsing these illegal vendors in both areas, things are slowly moving in the right direction.

Importance of Drones

We need Drones! - drones are being used for public safety situations by FDNY, NYPD and Parks (assisting lifeguards in locating victims and bringing them life preservers to save them!). These agencies will need additional funds to purchase these important devices - where will these funds come from?

Top 3 Most Pressing Issues Overall

What are the three most pressing issues facing your district? Please select three.

Infrastructure resiliency

Sandy Recovery and Future Resiliency: High-rise structures, notably those of the City's Housing Authority, evidence of the storm's devastation – the presence of mold, the shuttered community centers, abandoned homes, empty stores and civic facilities. NYCHA buildings currently constructing 2nd floor generators to prevent future floodings. Homes were not qualified for the back flow prevention program the State had promised to the residents. The shoreline is our other concern. Nothing has been done to protect us from the next superstorm. We need short term solutions such as planting beach sea grass and putting in dunes along the shoreline. Long term projects, will have to deal with the Army Corp of Engineers to build a sea wall in the Rockaway Inlet. Currently, there are plans to construct 6 large residential developments in our community. Each development has between 200-500 units. We need to upgrade our infrastructure to sustain the new developments. The sewer lines need to handle the new load of people moving into the neighborhood. As mentioned below with traffic, these developments do not provide adequate parking and therefore the new residents will be forced to find street parking.

Traffic

Traffic is one of the overwhelming problems in the peninsula. During the summer season, motorists come in and out of Coney Island and Brighton Beach, they are looking for free parking spots. When they realized there are no parking spots, they circle around the area waiting for someone to leave. This happens throughout the summer and residents feel hostage in their home, afraid to leave and lose their parking spot. There is limited amount of parking spaces and parking lots once they are filled up the streets. This causes a traffic nightmare. Emergency vehicles from Fire, Police, ambulances, EMS have difficulties reaching to their locations where time is an essence. One solution having people use mass transit. We finally have express service on the F train to Coney Island. We no longer have the ferry system come to Coney Island due to the enornmous cost of dredging the Coney Island Creek. Another solution is to have offsite parking and have people shuttled in on a jitney buses to their locations. This would partial alleviate the congestion coming into the area, and would give people an alternate route of

getting out of the area.

Other

Fixing up the Reigelmann Boardwalk - The Riegelmann Boardwalk has been neglected for so many years. Community Board #13 has put this in as a Top 3 important item to address. We understand there is a huge amount of funds to fix and maintain the boardwalk. It still needs to be fix and have a plan to have future maintenance, so we don't run into this problem again.

Health Care and Human Services

Most Important Issue: Health Care and Human Services

Please identify the most important Health Care and Human Services issue your district is facing.

Under your selection please explain why this issue more important than other Health Care and Human Services issues in your district. Please limit your explanation to about 500 words (3,000 characters).

Consider the following general guidelines to ensure your narrative is complete:

- Check to ensure responses refer to the issue selected
- Within each need narrative, explain the need and/or what is lacking in the district and advocate for what is needed to address the issue
- Reference research and figures and be sure to use current or the most recent available data
- Avoid using abbreviations or acronyms and spell out or define references to specific programs, neighborhoods, and projects within each statement
- Specific locations (if applicable) should be clearly defined and stated within each narrative
- Be sure to review and edit your submissions, entries will appear in the report as submitted

Most Important Issue:

Other

Community Board #13 needs a C1 Trauma Center in South Brooklyn Health (formerly Coney Island Hospital). Our hospital needs to address the growing population in the area. Time is of essence when a trauma patient is taken away from the area. If there was a C1 Trauma Center incorporated into South Brooklyn Health, it would cut down the time for helping the patient. We understand that this is not a City Budget item, but we need to make this situation aware to the city, state and federal government, that this is a priority for the neighborhood. With this pandemic, we need all the medical facilities to handle COVID19.

Needs for Health Care and Facilities

Community Board #13 needs a C1 Trauma Center in South Brooklyn Health (formerly known as Coney Island Hospital). Our hospital needs to address the growing population in the area. Time is of the essence when a trauma patient is taken away from the area. If there was a C1 Trauma Center incorporated into South Brooklyn Health, it would cut down in the time needed to help the patient. We understand that this is not a City Budget item but we need to make this aware to the city, state and federal government, that this is a priority for the neighborhood. There are programs that have been funded in the current year. We would like these fundings to continue with the following requests: Funding is needed for South Brooklyn Health to handle the growing population and has to keep up with the medical needs in the area, such as obesity awareness, diabetes prevention program, cancer awareness, high blood pressure reduction program, living with asthma, improving pediatric care, preventing heart disease, etc. With a growing population, South Brooklyn Health has to meet up with the demand. Funding must continue to keep up with medical needs and expand the hospital wherever it is possible. We need to promote guit smoking programs for the immigrant community. The program must be translated into other languages to reach the target audience. There is a growing immigration population such as Pakistanian, Ukrainian, Russian, Spanish and Asian. They are either unaware or afraid to enter a hospital because of a language barrier or afraid of deportation. The neighborhood health facilities has to conform to the neighborhood and outreach to the immigrant in their native language or the patient will not come.

Needs for Older NYs

Community Board #13 is a growing Naturally Occurring Retirement Communities (NORC). Community Board #13 has the largest senior population in NYC (23.3% of our population is over 65 years old)! With an aging community, we have to address the needs of this growing population. We find the older residents tend to live independently with their services nearby. As household size decreases and income is fixed, the residents downsize their apartments and remain in the area. Health care providers are needed to check in to see if everything is okay. Senior centers have grown giving the residents something to do during the day. With new housing developments coming into the neighborhood, there will be some senior residents occupying the new units. The new seniors will need additional senior services and they will overtax the existing senior services. The City has to build new senior centers or combine them with recreation center to create an intergenerational recreation center to bring the generation gap closer together. There is a large Asian population that uses the JCCGCI center on West 37th Street where the clients come from all over the borough. Their needs are different in culture and traditions and it would great to integrate with the rest of the community. A multicultural center would be able to address the growing Asian senior population. In Brighton Beach area, APNA Brooklyn Center has addressed the growing Muslim community. They have expanded and helped the Pakistians with basic needs in the neighborhood. The Shorefront Y and the Shorefront Jewish Community Council address the Russian and Ukrainian population in Brighton Beach. Their programs are expanding to address the NORC community. More senior services are needed in the neighborhood.

Needs for Homeless

There has been an increasing amount of seasonal homelessness in our community. Homeless people come down during the warmer months but never seem to leave until the weather becomes brutally cold. We need to address this problem year round. We DO NOT need a homeless shelter to address this problem because the community already has over seven NYCHA developments in a half mile radius. Coney Island has been the dumping ground for low income families and does not need to oversaturate the area with a homeless shelter. There are more affordable housing being built in our area. We do not saturate the area with more low income developments. The City needs to address the existing problems in the neighborhood before receiving a new shelter. There are programs that have been funded in the current year. We would like these funding to continue with the following requests: More rental assistance program is needed to help the homeless people in the community. We need anti-eviction legal services to prevent people from becoming homeless. We continued to support increase personnel Dept. of Homeless Services/Breaking Ground. More personnel is needed due to the increase of homeless people in the community. We need to expand street outreach to handle the seasonal homeless during the summer months.

Needs for Low Income NYs

We need to help the low-income and vulnerable people in our community by providing job training, placement support, food assistance such as Food Stamps, improve delivery of emergency food and shelter in case of disaster. We also need to provide social services to domestic violence survivors and provide case management for persons living with HIV or AIDS. With over seven NYCHA developments, there are not enough programming to address the issues. We DO NOT need a homeless shelter, it would burden the area with more problems. There are programs that have been funded in the current year. We would like these funding to continue with the following reguests: We need to expand our job training for the community. We have Workforce1 for Sandy victims, but we need to make it a permanent program. We need to have a training/vocational center to teach the people a skill. We need to expand our job search and placement support for the community. It is vital to make the people job ready and to keep the job with placement support. In our low-income neighborhood, we need to expand food assistance for getting healthy choices to the people. There is a need to provide social services for domestic violence survivors. The community needs more information for the victims to know their rights. We need to provide case management, cash assistance and social services for people living with clinically symptomatic HIV or AIDS. With no community based organization dealing with the HIV/AIDS issue we need funding for community. With this pandemic, we realized the low income children were neglected by not getting proper digital tools for school. People who were laid off from their jobs needed more food resources and job opportunities. Businesses are closed and unemployment checks are finished, people need assistance.

Youth, Education and Child Welfare

Most Important Issue: Youth, Education and Child Welfare

Please identify the most important Youth, Education, and Child Welfare issue your district is facing.

Under your selection please explain why this issue more important than other Youth, Education, and Child Welfare issues in your district. Please limit your explanation to about 500 words (3,000 characters).

Consider the following general guidelines to ensure your narrative is complete:

- Check to ensure responses refer to the issue selected
- Within each need narrative, explain the need and/or what is lacking in the district and advocate for what is needed to address the issue
- Reference research and figures and be sure to use current or the most recent available data
- Avoid using abbreviations or acronyms and spell out or define references to specific programs, neighborhoods, and projects within each statement
- Specific locations (if applicable) should be clearly defined and stated within each narrative
- Be sure to review and edit your submissions, entries will appear in the report as submitted

Most Important Issue:

Other

Our biggest concern in our neighborhood is reopening our community center that was destroyed by Superstorm Sandy. After ten years, some community centers/daycare centers are still closed and need to reopen soon. The youth have no where to go and limited resources out here to occupy them during the year. Wokforce1 has helped the young adults but the community centers are need for the children. Safe community centers need to be rebuilt and made resilient to address the needs of the area. A long term solution is to build a recreational center to address this need that would be intergenerational, multicultural, educational, multi-use recreational facility. This could be tied in with a boathouse to do water activities, too.

Needs for Youth Education

Our biggest concern in our neighborhood is reopening our community center that was destroyed by Superstorm Sandy. After eleven years, some community centers/daycare centers are still closed and need to reopen. The youth have no where to go and there are limited resources out here to occupy them during the year. Safe community centers need to be rebuild and made resilient to address the needs of the area. A long term solution is to build a recreational center to address this need that would be intergenerational, multicultural, educational, multi-use recreational facility. This could be tied in with a boathouse to do water activities, too.

There are programs that have been funded in the current year. We would like these funding to continue until completed with the following requests: A full library are needed in our schools. The current library are not well stock and being under utilized without programs. With the school giving healthier choices to students during meal times, it is needed to explain to them that it is a life choice to make. Giving the youth nutritional program to educate them on what is healthy and what is junk food is greatly need. Also, we would like to look into the greenhouse garden to have the youth understand where the food is coming from and how they can prepare healthy for that they have grew will give them an idea where the healthy foods come from. The school buildings need to be retrofitted so the teachers and students have a safe place to go in case there are future pandemics. We need to bring back Workforce1 storefront instead of them having a mobile office in the neighborhood.

Needs for Youth and Child Welfare

The early stages of child development is very important and we need quality childcare services in our daycare and head start centers. We need to rebuild childcare centers and improve on their service. After Superstorm Sandy, childcare and head starts center were destroyed and had to be rebuilt. Some are still not rebuilt and the void needs to be filled. The centers are either doubled up or ceased to exist. We have to rebuild or build new centers to have quality childcare services. There are programs that have been funded in the current year. We would like these funding to continue with the following requests: We need to expand options for kinship foster care services to help family integrate the child into their new environment. We need juvenile justice programs and preventive services in our neighborhood. We need to expand preventive services to avoid future delinquents in the community. All child care centers were affected by Superstorm Sandy needs to be renovated and upgrade to avoid future disaster. We need to continue support to increase personnel for monitoring of day care centers The community needs adequate funding for preventative and child protection services. In low-income neighborhood, child protection services generally gets overlooked. We need to provide funding for youth program for 18 to 21 year olds who have aged out or been discharged from foster care services because at that age, the young adult has not been fully adapted to their new environment and without an education, they are likely not to get a high paying job. They will become the new homeless in our community.

Public Safety and Emergency Services

Most Important Issue: Public Safety and Emergency Services

Please identify the most important Public Safety and Emergency Services issue your district is facing.

Under your selection please explain why this issue more important than other Public Safety and Emergency Services issues in your district. Please limit your explanation to about 500 words (3,000 characters).

Consider the following general guidelines to ensure your narrative is complete:

- Check to ensure responses refer to the issue selected
- Within each need narrative, explain the need and/or what is lacking in the district and advocate for what is needed to address the issue
- Reference research and figures and be sure to use current or the most recent available data
- Avoid using abbreviations or acronyms and spell out or define references to specific programs, neighborhoods, and projects within each statement
- Specific locations (if applicable) should be clearly defined and stated within each narrative
- Be sure to review and edit your submissions, entries will appear in the report as submitted

Most Important Issue:

Traffic violations and enforcement

In our district, we are number one in crime reduction in NYC. With youth crime and gun violence down in our neighborhood, we now can concentrate on the quality of life issues such as traffic congestions and parking problems. With the hot summer days or big events in the area, we have traffic problems in getting people in and out of the area. People are held hostage trying to leave the area and cannot find parking when they returned home. We need to address this as a safety concern when emergency vehicles cannot move through the neighborhood without being stop by traffic.

Needs for Public Safety

A summer detail is made available for the 60th Precinct, but growing crowds indicate that added personnel is needed. We need additional uniformed officers to keep law and order in community that has summer crowds in the thousands. The community is neglected when the officers are diverted to control the crowds. We need traffic enforcement officers to help direct traffic coming and going out of the area. We need them to keep the traffic flowing and ticket motorists for double parking and illegally blocking traffic in the area. There are programs that have been funded in the current year. We would like these funding to continue with the following requests: - Continue support for additional staff to address specific crimes such as drug, gang-related issues. - We need to continue to support resources to train officers in NCO and YCO to help with better relationships with the community. - We request to have heavy duty equipment such as heavy duty helmets and vests. With huge crowds in the summer time, we feel that it is an easy target for terrorist attacks and we should be equipment to handle the situation. We would like to see how we can use drones in our area to assist with chronic problems.

Needs for Emergency Services

Our community stress highly on emergency/disaster services needs. Ever since Superstorm Sandy, we have found ourselves vulnerable to the environment and the increasing developments around the area. We need to be prepared for any situation whether it be another Superstorm Sandy, or a blizzard or even a blackout we have to protect our community. Even with this pandemic, a local emergency center for emergency/disaster/ pandemic assistance is needed. We need something that is central and is recognize by the community a place to get help and information. We would like to see how we can use drones in our area to assist with high rise fires and drowning victims along the beach.

Core Infrastructure, City Services and Resiliency

Most Important Issue: Core Infrastructure, City Services and Resiliency

Please identify the most important Core Infrastructure and City Services issue your district is facing.

Under your selection please explain why this issue more important than other Core Infrastructure and City Services issues in your district. Please limit your explanation to about 500 words (3,000 characters).

Consider the following general guidelines to ensure your narrative is complete:

- Check to ensure responses refer to the issue selected
- Within each need narrative, explain the need and/or what is lacking in the district and advocate
 for what is needed to address the issue
- Reference research and figures and be sure to use current or the most recent available data
- Avoid using abbreviations or acronyms and spell out or define references to specific programs,

neighborhoods, and projects within each statement

- Specific locations (if applicable) should be clearly defined and stated within each narrative
- Be sure to review and edit your submissions, entries will appear in the report as submitted

Most Important Issue:

Protective Infrastructure (sea walls, flood walls, etc.)

After Superstorm Sandy, the community realized that our shorelines were not protected and we must protect our infrastructures. Short terms goals such as sand dunes, are needed for immediate protection. Long term goals such as living breakwaters will take time to implement and construct. We need to proceed with a definitive plan for the area, so that another hurricane season doesn't pass by without preventive measures in place.

Needs for Water, Sewers, and Environmental Protection

Our biggest issue is to protect our shoreline from the next disaster. After Superstorm Sandy, we realized how vulnerable our shoreline is during a hurricane. We need to upgrade and maintain our sewer lines. Currently, DDC is upgrading our sewer lines at West 16 Street, we need to continue this throughout the whole community. DDC is reconstructing the streets with porous pavements; we hope this is successful and would be able to replace the remaining streets with this porous pavements. We found out the City does not have funds to relocate our sanitation garage. We have been waiting since 1983 to move this garage which will house two sanitation district. We will put this in as a top proirity for the area. There are programs that have been funded in the current year. We continue support to clean our catch basins throughout our community. We realized when Superstorm Sandy inundated the area with water, the catch basins backed up because they were never properly cleaned. We need to continue to expand the noise abatement programs and enforcement programs in the community. With our amusement area, there tends to have vendors who blast their music into the community. We need to have enforcement come out to fine these vendors who do not comply. We need air quality monitoring systems to measure the air quality in our community. Since Superstorm Sandy, residents have more respiratory problems and needs to be looked into. Also, with the pollution Coney Island Creek which adds to the air problem.

Needs for Sanitation Services

Construction of Sanitation Garage for Community Board #13 has been promised to the community since 1980. The current site is on West 21 Street and the trucks are situated behind people's backyards. We heard earlier this year that the funding was not available for the garage. We are still interested in moving the sanitation garage to the new location. It will house two garages (BK13 and BK15) at the new site. We need the City to put the funding back into the relocation of the garage. There are programs that have been funded in the current year. We would like these funding to continue with the following requests: We need to continue to clean up the vacant lots that are privately and city owned lots. We need to have the lots cleaned to show the community that we are not here to be dumped on. Continue to support Sanitation Police Illegal Dumping Task Force. We continue to support enforcement of dirty sidewalk, dirty area, and failure to clean area laws. Property owners and commercial owners need to know they are responsible to keeping their area clean. We need enforcement officers to keep on top of the litter. We need to increase enforcement of illegal posting laws. We need to educate groups that it is illegal to do posting on certain poles. Also, we need to fine the distributors so they understand where they can post. We would like to continue support for NYC organics collection programs for our neighborhood. We understand that composting organic items will be keep the environment cleaner. We need to provide more frequent organics and recycling collection service for schools and institutions. With the collection of the organic items, they tend to decompose quickly and the smell cannot be housed in the location for too long before it becomes a health hazard. With the Sanitation Police having the new enforcement power over illegal vendors, we need to work with the PEP officers during the summer to tackle the problem in the amusement area.

Housing, Economic Development and Land Use

Most Important Issue: Housing, Economic Development and Land Use

Please identify the most important Housing, Economic Development and Land Use issue your district is facing.

Under your selection please explain why this issue more important than other Housing, Economic Development and Land Use issues in your district. Please limit your explanation to about 500 words (3,000 characters).

Consider the following general guidelines to ensure your narrative is complete:

- Check to ensure responses refer to the issue selected
- Within each need narrative, explain the need and/or what is lacking in the district and advocate
 for what is needed to address the issue
- Reference research and figures and be sure to use current or the most recent available data
- Avoid using abbreviations or acronyms and spell out or define references to specific programs, neighborhoods, and projects within each statement
- Specific locations (if applicable) should be clearly defined and stated within each narrative
- Be sure to review and edit your submissions, entries will appear in the report as submitted

Most Important Issue:

Workforce development (including MWBE opportunities)

Workforce1 is essential to the neighborhood. Creating jobs and training skills for young adults are very important. We need to expand the program and give more job opportunities to the community.

Needs for Land Use

We need to have more building inspectors to enforce the building codes in the neighborhood. Illegal conversions of buildings are being subdivided and are not up to code. It is a health and safety concern dealing with unlivable conditions and fire hazard with overloading the existing utilities. We need to do a land use study to see what is present and available and what is needed for the future. There are programs that have been funded in the current year. We would like these funding to continue with the following requests: Increase compliance division – Dept. of Buildings. We continue to support the need to assign additional building inspectors for code enforcements because property owners are constructing illegal conversions in the area and needs to be fined and stopped. We continued to support the need to address illegal conversions and uses of buildings. We get complaints from the neighborhood, and it needs to be resolved.

Needs for Housing

Our concern in our community board for housing is our area is being overdevelop with apartments. Property owners are building apartments on a small parcel of property. We are oversaturated with large developments that our infrastructures made not handle the increase. Our concern is with traffic flow and parking. With new developments, there isn't enough adequate parking space to accommodate the renters. We need to continue to address the housing issues in the area by support our local housing groups. There are programs that have been funded in the current year. We would like these funding to continue with the following requests: - Continue support for Home Improvement program, Article 8A and PLP Loans - We need to expand programs for housing inspections to correct code violations in the high rise building. Management needs to correct violations in a timely manner or receive hefty fines for not being in compliance. - Continued support to expand tenant protection programs letting tenants know their rights. We need to support our existing housing groups and expand their services to the tenants. - We need to renovate and upgrade public housing developments. Since Superstorm Sandy, there are items still not fix, such as boiler system, community centers and other basic needs. - We need our community centers in NYCHA developments to be repaired and opened. Since Superstorm Sandy, our community centers have been closed and our youth have no where to play. - We need to improve public housing maintenance and cleanliness throughout the NYCHA developments. The lobby area needs to be kept clean and the grounds need to be tidy. We need to work with management with the office hours. We have renters who cannot meet during business hours without taking a day off. Extended nights and weekend shifts should be accommodating to the developments. Also, translation on notices are needed for people to read in their native language.

Needs for Economic Development

We need economic development to the area to stimulate the community. With economic development comes jobs for the community. It will help the local economy and bring new business into the area. With the development of residential and commercial projects, we have to remember of the traffic problems, limited parking spaces and other infrastructure issues. We cannot develop without looking at the existing infrastructure and how it will impact on our limited services. There are programs that have been funded in the current year. We would like these funding to continue with the following requests: We need to improve our streetscapes in business district to attract and encourage commercial activities. We also need to make the street lights more resilient to future storms. We would like to have the street light run on solar panels so they are not dependent on the power lines. We need to expand

access to low cost financing to help neighborhood businesses construct or improve space. We know it is hard to obtain business loans for store improvements, we need to make it easier to apply and approve them. We need to support non-profit organizational development and capacity building for improving the commercial strip. After Superstorm Sandy, we need to provide business recovery assistance after an emergency. The community realize that we were not prepared to help our businesses after an emergency. We have youth that have not graduated from high school and can't get into college without job skills or job training. Workforce1 helps youth and adults in employment services but we also need to provide them with skills. Support for Job Training programs in C.B. 13. We need to expand occupational skills training programs to help our local residents. We need to support recruitment and hiring of employees in our neighborhood. We need to continue to support Workforce1 and bring it back to a storefront office. We need to improve disaster preparation for small businesses. After Superstorm Sandy, businesses were not prepared to handle a disaster. We need to programs to support local businesses and entrepreneurs. After Superstorm Sandy part of the neighborhood had a hard time reopening their businesses and decided to close their stores. Since then, it has been a hardship to repair their stores and attract new businesses to the area. We need to address these issues. We need to support immigrant, minority, veteran and women-owned, as well as local and new businesses. We understand the minority are the hardest to work through the system, whether it be discrimination or a language barrier, we need to fix it. We need to provide assistance for minority women-owned businesses and small businesses in responding to bids and request for proposal. The businesses have to understand the process of working with the system to bid on proposals. Economic subsidies/tax breaks/grants are needed to bring back the businesses and jobs.

Transportation and Mobility

Most Important Issue: Transportation and Mobility

Please identify the most important Transportation and Mobility issue your district is facing.

Under your selection please explain why this issue more important than other Transportation and Mobility issues in your district. Please limit your explanation to about 500 words (3,000 characters).

Consider the following general guidelines to ensure your narrative is complete:

- Check to ensure responses refer to the issue selected
- Within each need narrative, explain the need and/or what is lacking in the district and advocate for what is needed to address the issue
- Reference research and figures and be sure to use current or the most recent available data
- Avoid using abbreviations or acronyms and spell out or define references to specific programs, neighborhoods, and projects within each statement
- Specific locations (if applicable) should be clearly defined and stated within each narrative
- Be sure to review and edit your submissions, entries will appear in the report as submitted

Most Important Issue:

Traffic safety and enforcement (cars, scooters, ebikes, etc.)

With successful developments come increased problems with traffic. It is one of the key worries for the

peninsula. Motorists coming in and out of Coney Island, Brighton Beach, Sea Gate and Gravesend find themselves trapped in bumper-to-bumper traffic. During a major event or a hot summer weekend, it is a traffic nightmare and it has now become a safety issue for emergency vehicles getting around the neighborhood. It is a sad fact for residents of Coney's west and Sea Gate to find themselves stuck in gridlock for an hour in order to leave the vicinity; some simply turn back home. Traffic enforcement officers to ticket illegal cars double parked or direct traffic to flow smoothly during major events are needed in the area.

Needs for Traffic and Transportation Infrastructure

As mentioned before, traffic congestion and limited parking spaces are a major issue in the area during the summer time. We need to do a traffic survey to alleviate the congestion issue and figure out what can be done. One idea is to build multi-deck parking lots to accommodate the increasing cars coming into the community. The MTA needs to provide express service to Coney Island so people can travel to and from the area in less than a hour. There are programs that have been funded in the current year. We would like these funding to continue with the following requests: Reconstruction streets, sidewalks. We need to install streetscape improvements for our area. After Superstorm Sandy, we need to provide new resilient street lights. Power was off for two weeks during Sandy, and everything was completely dark after sundown. If we had solar panel street lights, we would have been partly in the dark and would have felt more secured.

Needs for Transit Services

The city, borough, and community all urge people to use public transportation, and, in the case of summertime Coney Island and Brighton Beach, it is the wisest move, but Transit uses weekend hours to fix its subway lines for needed rail and station work. The resultant shifts in movement of F, D, and other lines prove delays and confusion. The result: people may use their cars. We need to improve on the bus service coming into the area. We need to have express bus service over the weekend and SBS B82 ending in Coney Island rather than stopping at Cropsey Avenue and 25th Avenue. Also, we need more electronic kiosks to notify the public how long until the bus arrives at the stop. We are not getting the ferry service to Coney Island Creek. We still need a ferry on the beach side.

Parks, Cultural and other Community Facilities

Most Important Issue: Parks, Cultural and other Community Facilities

Please identify the most important Parks, Cultural, and other Community Facilities issue your district is facing.

Under your selection please explain why this issue more important than other Parks, Cultural, and other Community Facilities issues in your district. Please limit your explanation to about 500 words (3,000 characters).

Consider the following general guidelines to ensure your narrative is complete:

- Check to ensure responses refer to the issue selected
- Within each need narrative, explain the need and/or what is lacking in the district and advocate for what is needed to address the issue
- Reference research and figures and be sure to use current or the most recent available data
- Avoid using abbreviations or acronyms and spell out or define references to specific programs, neighborhoods, and projects within each statement

- Specific locations (if applicable) should be clearly defined and stated within each narrative
- Be sure to review and edit your submissions, entries will appear in the report as submitted

Most Important Issue:

Other

With the new landmark status for the boardwalk, the Community Board would like it to be fixed and maintained so it can be preserved as a landmark. We know there are challenges in getting the boardwalk fixed but now it has gotten to the point where it is unsafe in certain area and need to be address. We understand there are limits with the carpenters and the actual time to work on the boardwalk during the off season but there has to be a better way to fix the boardwalk before it become a safety hazard and lawsuits to follow with people tripping over loose planks and screws. We hope this can be address since this is our number one priority in our capital budget.

Needs for Parks

As mention before, we need to protect our shoreline from the next major storm. We have to secure the shoreline or all will be washed away with the next major storm. In addition, we need to repair and maintain our boardwalk. With part of the boardwalk falling apart will lead to lawsuit against the City. We need to fix the bathrooms and rebuild the ones on the west end of Coney Island. We need a New recreational center at West 23rd Street/Kaiser Park. The community needs an affordable recreational center that will be intergeneration, multicultural, educational, nature conservatory, ice skating rink, adult vocational training center, emergency center, greenhouse, boathouse, sport related activities, indoor skate board park, boxing ring, etc. This center would be located next to and behind Mark Twain JHS which would wrap around to West 23rd Street to West 25th Street. This would also include parking space/garage for people using the facility. We would like to model the recreational center like Ocean Breeze Complex in Staten Island.

We lost a child due to drowning at the beach. The child was swimming in an area where there were no lifeguards present. We need more lifeguards with new life saving technology. We would like the Parks Department to invest in drones to assist the lifeguards in spotting drowning victims in the water and bringing life preservers to the drowning victims. We understand this maybe new and expensive but can we put a price on a child's life if we could save them from drowning?

There are programs that have been funded in the current year. We would like these funding to continue until completed with the following requests: We need to hire more lifeguards for our beaches to prevent any lost of life. Renovation work on Asser Levy Park: infrastructure improvements to halt flooding; landscaping; etc. Upgrade Scarangella Park with comfort station and other amenity. We need more mobi-mats for accessibility to the beach. We need PEP officers at the beaches, boardwalk and Asser Levy Park to crack down illegal vendors selling to the public. Increase funds to keep Boardwalk bathrooms open to later hours. Continued support to increase personnel for Parks. Add light-weight vehicles for work on Boardwalk and beach; maintenance of vehicles to ensure ready use of light-weight vehicles. Tree Removal and Replacement: We continued to support the street tree maintenance throughout the community. We need to have public programming and activation of public spaces on City-owned sites. Help support the Operation GreenThumb Gardens in our neighborhood: Santos Community Garden, West 29th Street Surfside Gardens, and West 23rd Street Community Garden.

Needs for Cultural Services

We need a New recreational center in Kaiser Park. The community needs an affordable recreational center that will be intergeneration, multicultural, educational, nature conservatory, adult vocational training center, emergency center, greenhouse, boathouse, sport related activities, ice skating rink, indoor skate board park, boxing ring, etc. This center would be located behind Mark Twain JHS which would wrap around to West 23rd Street to West 25th Street. This would also include parking space/garage for people using the facility. We would like to model the recreational center like Ocean Breeze Complex in Staten Island.

Needs for Library Services

We need to upgrade our library facilities with more computers and innovative ideas to attract readers

and the community. We need to expand the library hours and have weekend services, too. We also need more diverse variety of books in other language for the immigrant population.

Needs for Community Boards

We need to continue increase our presence in the area for people to use the community board as the central agency to handle local and community wide issues. We need to expand the staff and hire consultants to address the issues and solve current issues. We also need to relocate the board office to the ground floor to be closer to the public. This will give us the presence in the neighborhood.

Budget Requests

Budget Requests - Capital

1 Improve access to a building in a park

Reference name: Improve access to a building Explanation: Rehabilitation of the

in a park

Full agency name: **Department of Parks and**

Recreation BR Type: C

Need: Park, buildings, and access

improvements

Tracking Code: **213202201C** Agency Category Code: 0

Site or Address No files uploaded. No files uploaded.

Riegelmann Boardwalk in Coney Island and Brighton Beach. The boardwalk has been falling apart and need more maintenance to prevent any accidents from happening. Also, there needs to be some type of solution to get rid of the heavy vehicles that are not needed on the boardwalk. In addition, there needs to be a study on the storm surge and its effect on the different type of materials for the boardwalk.

2 Other health care facilities requests

Reference name: Other health care facilities

requests

Full agency name: **Health and Hospitals**

Corporation BR Type: C

Need: Health care facilities Tracking Code: **213202202C** Agency Category Code: 0

Site or Address

Street Name: Coney Island Hospital

Address:

Upload Supporter 1 Letter No files uploaded. Upload Supporter 2 Letter No files uploaded. Explanation: A C1 Trauma Center is needed in South Brooklyn Health (formerly known as Coney Island Hospital). With the increasing population due to new housing development and the influx of tourists during the summer time, we need a C1 Trauma Center in the neighborhood. We understand that this is not a City Budget item but we need to make this aware to the city, state and federal government, that this is a priority for the neighborhood.

3 Other requests for park, building, or access improvements

Reference name: Other requests for park, building, or access improvements

building, or access improvements

Full agency name: **Department of Parks and**

Recreation BR Type: **C**

Need: Park, buildings, and access

improvements

Tracking Code: **213202203C** Agency Category Code: **0**

Site or Address No files uploaded. No files uploaded. Explanation: We need shoreline protection for the entire shorefront. This task requires multi-agencies to address this issue. The Army Corp of Engineers, Office of Resiliency and Recovery, Department of Environmental Protection, Parks Department, and other agencies needs to have short term and long term plans to handle the next storm. This is a long process that needs immediate attention and funding. Plans include but not limited to planting sea grass, green street gardens (bio swelles), back flow prevention valves, sea walls, etc.

4 Provide new or upgrade existing sanitation garages or other sanitation infrastructure

Reference name: **Provide new or upgrade existing sanitation garages or other sanitation infrastructure**

Full agency name: **Department of Sanitation**

BR Type: C

Need: Garbage collection and recycling infrastructure

Tracking Code: **213202204C**Agency Category Code: **0**

Site or Address

Street Name: Sanitation Garage Address: 2012 Neptune Avenue

No files uploaded. No files uploaded. Explanation: Construction of Sanitation
Garage for Community Board #13 has been
promised to the community since the 1980s.
The current site on West 21 Street and
Neptune Avenue, are situated behind
people's backyards. Since Superstorm Sandy
Community Board #15 garage had been
damaged, too and was to merge the two
garages together. DSNY needs to find
another location.

5 Repair or build new seawalls or bulkheads

Need: Park, buildings, and access

improvements

Tracking Code: **213202224C** Agency Category Code: **0**

Site or Address No files uploaded. No files uploaded. Explanation: We need a dog run at Asser Levy Park.

25 Other cultural facilities and resources requests

Reference name: Other cultural facilities and Explanation: There is a lack of cultural

resources requests

Full agency name: **Department of Cultural**

Affairs BR Type: **C**

Need: Cultural facilities and resources

Tracking Code: **213202225C**Agency Category Code: **0**

Site or Address No files uploaded. No files uploaded. Explanation: There is a lack of cultural facility for the area. We need to give the community choices other than sport facilities. We need a performing arts facility that will attract Southern Brooklyn people to the area.

26 Repair or provide new street lights

Reference name: Repair or provide new street Explanation: Brighton Beach Avenue is

lights

Full agency name: Department of

Transportation BR Type: **C**

Need: Transportation infrastructure

Tracking Code: **213202226C** Agency Category Code: **0**

Site Address No files uploaded. No files uploaded. Explanation: Brighton Beach Avenue is exceptionally wide, and the existing street lighting does not extend to adequately bathe pedestrians in light. This is especially true on the southside of Brighton Beach Avenue adjacent to the public park at the Oceana where the lush trees obscure the sidewalk and keep it in darkness. Pedestrian-level lighting in the form of (what are called by DOT) B-pole lights would greatly enhance visibility and remove the element of vulnerability which is currently the pedestrian experience.

27 Improve traffic and pedestrian safety, including traffic calming

Reference name: Improve traffic and pedestrian safety, including traffic calming

Full agency name: **Department of**

Transportation BR Type: C

Need: Traffic and traffic flow Tracking Code: 21320227C Agency Category Code: 0

Site Address No files uploaded. No files uploaded. Explanation: Traffic safety is a very real concern. When motorists, bicyclists and pedestrians don't follow the rules of the road, public safety is endangered. Neckdowns provide safe refuges for pedestrians to wait to cross the street. They shorten the effective crossing distance for pedestrians. And they do not take away parking spaces. They should be in place at every intersection in every commercial corridor in Southern Brooklyn.

28 Invest in capital projects to improve access to waterfront

Reference name: Invest in capital projects to Explanation: We need a ferry at the

improve access to waterfront

Full agency name: Department of Parks and

Recreation BR Type: **C**

Need: Park programming Tracking Code: 213202234C

Agency Category Code:

Site or Address No files uploaded. No files uploaded. Explanation: With the new technology using drones, we feel that this can help the lifeguards in spotting drowning victims and provide help by transporting life preservers to victims to far to reach by lifeguards (also, attach speakers to warn beachgoers of rough tides and riptides when there are no lifeguards present)

35 Provide new type and/or specific type of program

Reference name:

Full agency name: **Department of Parks and**

Recreation BR Type: **C**

Need: **Park programming** Tracking Code: **213202235C**

Agency Category Code:

Site or Address No files uploaded. No files uploaded. Explanation: With the new technology using drones, we feel that this can hinder illegal vendors on the boardwalk and beach. The drones can warn the illegal vendors by announcing they are breaking the law and the will be ticketed and merchandise confiscated if caught. This can monitor where hot spots needs to be addressed and survey the crowded areas when enforcement is not available.

Budget Requests - Continued Support

CS Evaluate a public location or property for green infrastructure, e.g. rain gardens, stormwater greenstreets, green playgrounds

Reference name: Evaluate a public location or property for green infrastructure, e.g. rain gardens, stormwater greenstreets, green playgrounds

Explanation: We need green infrastructure projects throughout the community. Since Superstorm Sandy, we realized that our infrastructure could not handle the overfle

Full agency name: Department of

Environmental Protection

BR Type: C

Need: **Sewage and flooding** Tracking Code: **213202236C** Agency Category Code: **0**

Site or Address No files uploaded. No files uploaded. Explanation: We need green infrastructure projects throughout the community. Since Superstorm Sandy, we realized that our infrastructure could not handle the overflow of water on the sewer lines and we need to fix it. One project is to have porous street pavements to handle the excess rain water. Strategically placed porous street pavements will be able to assist and handle the onslaught of water.

CS Renovate, upgrade or provide new community board facilities and equipment

Reference name: Renovate, upgrade or provide new community board facilities and equipment

Full agency name: **Department of Citywide Administrative Services**

BR Type: C

Need: Community board facilities and staff

Tracking Code: **213202237C** Agency Category Code: **0**

Site or Address No files uploaded. No files uploaded. Explanation: We need to move the

Community Board office to the ground level. Currently, we are located on the 3rd floor, above two bars and a gentlemen's club. Our entrance is located in the back of the building through a dark alley. We need to move.

CS Reconstruct or upgrade a building in a park

Site or Address

Street Name: Kaiser Park

Address:

No files uploaded. No files uploaded. **Explanation: Continued work at Kaiser Park** handball court restoration and the circle area adjacent to Mark Twain school.

Budget Requests - Expense

1 Other park maintenance and safety requests

Reference name:

Full agency name: Department of Parks and

Recreation BR Type: **E**

Need: Park maintenance and safety

Tracking Code: **213202201E**

Agency Category Code:

Site or Address No files uploaded. No files uploaded. Explanation: We need to hire more lifeguards for the beaches. We do not need to lose another life due to the lack of lifequards.

2 Provide new traffic or pedestrian signals

Reference name: Provide new traffic or

pedestrian signals

Full agency name: Department of

Transportation BR Type: **E**

Need: Transportation infrastructure

Tracking Code: 213202202E Agency Category Code: 0

Site Address No files uploaded. No files uploaded.

Explanation: We need new traffic and pedestrian signals to coordinate with traffic flow coming and going out of the area.

3 Address traffic congestion

Reference name: Address traffic congestion

Full agency name: Department of

Transportation BR Type: **E**

Need: Traffic and traffic flow Tracking Code: 213202203E Agency Category Code: 0

Site Address No files uploaded. No files uploaded. **Explanation: Coney Island and Brighton** Beach needs a comprehensive traffic study to identify effective strategies to improve mobility and access while reducing congestion and improving traffic safety. The area is experiencing development pressures and continues to experience a significant seasonal surge in traffic volume demand which our local street network cannot adequately process.

4 Improve parking operations

Full agency name: **Department of**

Transportation BR Type: E

Need: Traffic and traffic flow Tracking Code: 213202204E Agency Category Code: 0

Site Address No files uploaded. No files uploaded.

Reference name: Improve parking operations Explanation: We need to improve parking operations by leasing City owned properties for off-site parking. The parking site should have a shuttle for people to travel to and from the area.

5 Animal and pest control requests including reducing rat and mosquito populations

Reference name: Animal and pest control requests including reducing rat and

mosquito populations

Full agency name: Department of Health and

Mental Hygiene

BR Type: **E**

Need: Animal and pest control services

Tracking Code: **213202205E** Agency Category Code: 0

Site or Address

Upload Supporter 1 Letter No files uploaded. Upload Supporter 2 Letter No files uploaded. Explanation: Increase personnel for Rat Abatement. There has been a large increase of rats being displace by the new construction, they are running into existing buildings and causing problems to the neighborhood. We need to do a district wide abatement to tackle the rodent problem. In addition, we need to hire more exterminators to handle the increase of rodents issues.

6 Provide, expand, or enhance community outreach on HPD programs and services

Reference name: **Provide, expand, or enhance community outreach on HPD programs and services**Explanation: **We need to continue support to provide community outreach on HPD programs and services i.e. CCC program. Ou**

Full agency name: Housing Preservation and

Development BR Type: **E**

Need: Affordable housing programs

Tracking Code: **213202206E**Agency Category Code: **0**

Address widget: No files uploaded. No files uploaded. Explanation: We need to continue support to provide community outreach on HPD programs and services i.e. CCC program. Our housing groups are in need of funding for the area to help the tenants, homeowners and landlords. With tenants/landlords on the verge of losing their apartments due to the pandemic, more grants and programs need to help both deal with the problems. We need to expand the funding to anticipate the future emergencies, i.e. pandemic

7 Other park maintenance and safety requests

Reference name: Other park maintenance and Explanation: Additional operational

safety requests

Full agency name: **Department of Parks and**

Recreation BR Type: **E**

Need: Park maintenance and safety

Tracking Code: **213202207E** Agency Category Code: **0**

Site or Address No files uploaded. No files uploaded. resources are needed to meet the increasing demands for maintaining the Riegelmann Boardwalk in Coney Island and Brighton Beach in good condition. The safety and cleanliness of the boardwalk must be prioritized to protect our residents and the millions of tourist who visit each year. Sufficient resources are necessary for the regular repair of benches, drinking fountains, railings, signage, boardwalk surface treatments, access ramps and removal of excessive weed growth causing serious trip hazards.

8 Hire additional school safety agents

Reference name: Hire additional school safety Explanation: There is a need to improve

agents

Full agency name: New York City Police

Department BR Type: **E**

Need: **NYPD staff and training resources**

Tracking Code: **213202208E**Agency Category Code: **0**

Site or Address No files uploaded. No files uploaded. Explanation: There is a need to improve school safety with security guards and crossing guards around the schools. With the increase violence in the neighborhood and children bring in weapons, there has to be better school safety for the schools. We have to educate the youth to respect each other and not resort to violence. There should be a program dealing with anti-violence, anti-bullying and cyber-bullying for the children. We need to get the elected officials and the D.A. office involve with this problems.

9 Enhance NORC programs and health services

Reference name: **Enhance NORC programs** and health services

Full agency name: **Department for the Aging**

BR Type: **E**

Need: Naturally Occurring Retirement **Community (NORC) programs**

Tracking Code: **213202209E** Agency Category Code: 0

Site or Address

Upload Supporter 1 Letter No files uploaded. Upload Supporter 2 Letter No files uploaded. Explanation: We need to expand NORC programs and health services to assist the aging population. In our area, we have 23.3% of the population over 65 and it continues to increase each year.

10 Conduct BID Feasibility Analysis or support BID Formation Planning for a selected commercial district

Reference name: Conduct BID Feasibility Analysis or support BID Formation Planning Brighton Beach and it is successful in the for a selected commercial district

Full agency name: **Department of Small**

Business Services

BR Type: E

Need: Commercial district revitalization

Tracking Code: 213202210E Agency Category Code: 0
